**Location:** Justice & Municipal Center, 9002 Main Street East, Bonney Lake.

- I. Call to Order:** The meeting was called to order at 6:30 P.M.
- II. Roll Call:** Planning Commissioners in attendance were Grant Sulham – Chair, David Baus – Vice-Chair, Dennis Poulsen, Brad Doll, Debbie Strous-Boyd, Winona Jacobsen and Craig Sarver

Staff members in attendance were Senior Planner Jason Sullivan and Planning Commission Clerk Debbie McDonald

**Motion was made by Commissioner Sarver and seconded by Commissioner Doll to cancel the June 17, July 1 and July 15 Planning Commission meetings.**

**Motion approved 7-0**

- III. Approval of Minutes:**

**Motion was made by Vice-Chair Baus and seconded by Commissioner Doll to approve the minutes from the May 20, 2015 meeting with minor corrections.**

**Motion approved 7-0**

- IV. Public Hearing:**

1. Ordinance D15-51: Bonney Lake 2035 – Comprehensive Plan Update

Chair Sulham opened Public Hearing at 6:32

Senior Planner Sullivan presented the ordinance to recommend Bonney Lake 2035 be sent to City Council for approval. It would go to the City Council meeting on June 16<sup>th</sup>. He thanked the Planning Commission for all their hard work on Bonney Lake 2035 Comprehensive Plan Update.

Commissioner Sarver thanked staff for their support during the process.

Commissioner Strous-Boyd also thanked staff and had some corrections to the ordinance.

Commissioner Jacobsen also thanked staff for their hard work but is concerned with all the time that was spent to develop Bonney Lake 2035 the City Council will have such a short time to review the plan.

Chair Sulham closed the Public Hearing with no public comments at 6:38.

**Motion was made by Vice-Chair Baus and seconded by Commissioner Doll to recommend that the City Council adopt Ordinance D15-51 adopting Bonney Lake 2035 as the comprehensive plan for the City of Bonney Lake.**

**Motion approved 7-0**

**V. Public Comment and Concerns: NONE**

**VI. New Business: NONE**

**VII. Old/Continuing Business: NONE**

**VIII. For the Good of the Order:**

**a. Correspondence: NONE**

**b. Staff Comments:**

Senior Planner Sullivan gave an update on the upcoming agenda topics when Planning Commission meets again on August 5<sup>th</sup>.

**c. Commissioner Comments:**

Commissioner Jacobsen stated the Greater Bonney Lake Historical Society just completed an audio interview with former City Attorney George Kelly. It was very interesting and is available at the resource center for viewing.

**Adjournment**

**Motion was made by Commissioner Jacobsen and seconded by Commissioner Sarver to adjourn.**

**Motion approved 7-0**

**Meeting adjourned at 6:49**

Debbie McDonald Planning Commission Clerk

# Community Development Department Briefing Memorandum

**Date:** August 24, 2015  
**To:** Planning Commission  
**From:** Jason Sullivan – Senior Planner  
**Re:** **Ordinance D15-91 – Removal of Community Character Element Reference.**

---

## **PURPOSE:**

The purpose of this memorandum is to facilitate the Planning Commission’s public hearing on Ordinance D15-91, which will remove references to the community character element in the *Bonney Lake Municipal Code* (BLMC).

**SUGGESTED MOTION:** *“I move to recommend that the City Council adopt Ordinance D15-91 amending portions of Title 14, 15, 16, and 18 of the Bonney Lake Municipal Code to remove the reference to the community character element.”*

## **ATTACHMENTS:**

1. Ordinance D15-91
2. Planning Commission Recommendation Memo

## **BACKGROUND:**

On June 30, 2015, the City Council adopted Ordinance 1522 adopting Bonney Lake 2035 as the comprehensive plan for the City of Bonney Lake superseding all previous version of the comprehensive plan.

One of the changes made with the adoption of the City’s new comprehensive plan was the removal of the Community Character Element. The goals and policies of the previous Community Character Element have been primarily included in the Community Development Element and Environmental Stewardship Elements of Bonney Lake 2035.

However, multiple sections of the Bonney Lake Municipal Code (BLMC) still refer to the no longer existing Community Character Element. The proposed amendments in D15-91 will correct these references to ensure consistency between the City's development regulations and the City's comprehensive plan.

**ORDINANCE NO. D15-91**

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF BONNEY LAKE, PIERCE COUNTY, WASHINGTON, AMENDING PORTIONS OF TITLES 14, 15, 16, AND 18 OF THE BONNEY LAKE MUNICIPAL CODE TO REMOVE THE REFERENCE TO THE COMMUNITY CHARACTER ELEMENT.**

**WHEREAS**, on June 30, 2015 the City Council adopted Ordinance 1522 adopting *Bonney Lake 2035* as the comprehensive plan for the City of Bonney Lake superseding all previous version of the comprehensive plan; and

**WHEREAS**, as *Bonney Lake 2035* does not contain a community character element;

**WHEREAS**, the goals and policies of the previous community character element have been primarily included in the Community Development Element and Environmental Stewardship Elements of *Bonney Lake 2035*; and

**WHEREAS**, the City is required to ensure consistency between the adopted comprehensive plan and adopted development regulations;

**NOW THEREFORE**, the City Council of Bonney Lake, Washington, do ordain as follows:

**Section 1. Findings of Fact and Conclusions.** The City Council adopts the following findings of fact in support of its decision to adopt the amendments to the *Bonney Lake Municipal Code* (BLMC) contained in this Ordinance:

- 1) The City of Bonney Lake Planning Commission held a public hearing on September 2, 2015 to consider the amendments to the City's development regulations contained in this Ordinance as required by BLMC 14.140.080.
- 2) Pursuant to BLMC 14.140.090.B, the approval criterion for amendments to the City's development regulation is consistency with the comprehensive plan and the laws of the state of Washington
- 3) The City of Bonney Lake Planning Commission found that the amendments to the City's development regulations contained in this Ordinance \_\_\_\_\_ between *Bonney Lake 2035* and the City's adopted development regulations in the BLMC.
- 4) The City of Bonney Lake Planning Commission found that the amendments to the City's development regulations contained in this Ordinance are \_\_\_\_\_ the laws of the state of Washington.
- 5) The City published a notice of the public hearing on August 12, 2015 in the Bonney Lake Herald Courier as required by BLMC 14.140.040.D.

- 6) The notice for the public hearing was provided twenty days prior to the hearing consistent with the requirements of BLMC 14.140.040.D.
- 7) The City posted notice of the public hearing at the City's official posting locations on August 12, 2015.
- 8) The City maintains an email list of stakeholders and individuals that requested notification of hearings related to amendments to the City's development regulation and comprehensive plan consistent with *Bonney Lake 2035 - Implementation Element PI-Action-3*.
- 9) The Community Development Department provided notices of the public hearing to all stakeholders and parties identified on this list.
- 10) As provided in WAC 365-196-800(1), the City's development regulations must be consistent with and implement the City's comprehensive plan.
- 11) As provided in further in WAC 365-196-800(1), the term "implement" connotes not only a lack of conflict but also a sufficient scope to fully carry out the goals, policies, standards and directions contained in the comprehensive plan.
- 12) The adoption of this Ordinance is considered a non-project action as defined in WAC 197-11-704(2)(b) under the State Environmental Policy Act (SEPA).
- 13) The Community Development Director acting as the SEPA Responsible Official determined that the proposed amendment is categorically exempt from the SEPA pursuant to WAC197-11-800(19)(b).
- 14) As required by RCW 36.70A.106 and BLMC 14.140.070, the City provided this Ordinance to the Department of Commerce for review and comment by the Department and other State agencies.
- 15) As authorized by RCW 36.70.106(3)(b), the City requested that the Department of Commerce grant expedited review of the proposed amendments to the City's development regulation contained in this Ordinance.
- 16) The Department of Commerce granted expedited review and the review period concluded on August 20, 2015.

**Section 2.** Section 14.95.010, "Purpose" of the Bonney Lake Municipal Code and the corresponding portion of Ordinance Nos. 1025 § 10 is hereby amended to read as follows:

**14.95.010 Purpose.**

The purposes of these design review regulations ~~is are to: implement the community character element of the comprehensive plan.~~

- A. To promote the public health, safety, and general welfare of the citizens of Bonney Lake;
- B. To recognize that land use regulations aimed at the orderliness of community growth, the protection and enhancement of property values, the minimization of discordant and unsightly surroundings, the avoidance of inappropriateness and poor quality of design and other environmental and aesthetic objectives provide not only for the health, safety, and general welfare of the citizens, but also for their comfort and prosperity and the beauty and balance of the community, and as such, are the proper and necessary concerns of local government;
- C. Protect, preserve, and enhance the social, cultural, economic, environmental, aesthetic, and natural values that have established the desirable quality and unique character of Bonney Lake;
- D. Promote and enhance construction and maintenance practices that will tend to promote visual quality throughout Bonney Lake;
- E. Recognize environmental and aesthetic design as an integral part of the planning process; and
- F. Implement adopted land use policies and regulations, including the Downtown Design Guidelines and *Bonney Lake 2035*.

**Section 3.** Section 15.28.090, “Temporary permits” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1351 § 1 is hereby amended to read as follows:

**15.28.090 Temporary permits.**

- A. Application may be made along with required permit fees to the department of planning and community development for a temporary permit for the following purposes:
  1. Special Event Signs. Temporary, special event sign(s) and decorations are allowed by the director of planning and community development for special events, grand openings, or holidays. Such signs and decorations may be used for a period of not exceeding 14 days and only two such permits shall be issued to any one person/organization per calendar year. Such signs must be removed within 48 hours following completion of event or activity. Any such sign in violation of these requirements may be removed and may result in an assessment in the cost of their removal pursuant to Chapter 14.130 BLMC.
  2. Outdoor Vendor Signs. A maximum of two movable sandwich board signs are allowed on the premises for temporary outdoor vendors, that is Christmas tree lots, fruit stands, and farmers’ markets, in the DC, DM, C-2, C-3, Midtown, and Eastown, ~~C-2/C-3 combined and M-1 zone classifications~~. Such signs are limited to

a maximum of six square feet in area per face and a maximum height of four feet. Such signs are permitted for a duration of 120 days within a one-year period. Such signs are not permitted in any public right-of-way. Such signs are prohibited on the roof of any temporary or permanent building, trailer, or vehicle used by the vendor. All outdoor vendor signs shall be ~~designed to fit with the community character and~~ be constructed of durable materials such as metal, wood, or plastic. Such signs must be removed within 48 hours of the completion of the event or activity. Any such sign in violation of these requirements may be removed and may result in an assessment in the cost of their removal pursuant to Chapter 14.130 BLMC.

B. Permit Application. The applicant shall file an application for a temporary permit which shall include the following:

1. A completed permit application on a form provided by the ~~planning and community development department~~ Community Development Department including the name and address of the owner of the sign, street address or location of the property on which the sign(s) are to be located, and the name and address of the property owner.
2. The identification and description of all proposed sign(s), as part of the temporary permit.
3. A site plan or map of the proposed location(s) of the sign(s).
4. In addition to items listed above, applicant will be required to pay all review fees (BLMC 3.68.010) and permit fees.

C. Appeal. An individual or organization who is denied a temporary permit under this section may appeal such denial. Such appeal must be filed with the planning and community development department and must be in writing, explaining the reason for the appeal. Such appeal must be filed within two business days of the temporary permit decision. The city administrator will review the written appeal and issue a written determination within two business days. The individual or organization may appeal the determination of the city administrator to a hearing examiner pursuant to the procedures and deadlines of BLMC 14.120.020.

**Section 4.** Section 16.12.020, “Purpose” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1171 § 1 is hereby amended to read as follows:

**16.12.020 Purpose.**

The purpose of Chapters 16.12 through 16.14 BLMC is to implement *Bonney Lake 2035* ~~the comprehensive plan community character element~~ and protect the environment, aesthetics, and privacy by:

- A. Ensuring that the community continues to benefit from a substantial canopy of trees by retaining some older trees and by encouraging sufficient tree planting to keep pace with urban growth and tree removal;
- B. Preventing unnecessary denuding of development sites;
- C. Buffering large parking areas and buildings;
- D. Attenuating visual and noise impacts where adjacent to sensitive land uses;
- E. Providing visual screens and barriers as a transition between differing land uses;
- F. Avoiding wasteful irrigation;
- G. Encouraging plant species diversity and prevalence of native plants;
- H. Reducing stormwater and erosion impacts on steep slopes;
- I. Avoiding excessive interference with the tree management decisions of individual homeowners; and
- J. Ensuring that the permit process is as convenient as possible.

**Section 5.** Section 16.13.050, “Decision criteria on residential development sites” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1171 § 1 is hereby amended to read as follows:

**16.13.050 Decision criteria on residential development sites.**

On sites where new residential development is proposed or anticipated, whether short plat, subdivision, or multifamily development, the director(s) shall approve or deny clearing permits consistent with the following rules:

- A. Tree retention requirements shall not interfere with full development at the dwelling unit density permitted in the applicable zone; provided, that for tree retention purposes, slopes over 25 percent shall be excluded from the net acreage as defined in BLMC 18.04.140. Sufficient clearing shall be allowed to make room for required buildings, driveways, walkways, parking, vision clearance triangles (see definitions), utilities, stormwater facilities, and similar improvements. If the city requires that trees be retained, the city shall allow clustering of homes on other parts of the site as necessary to retain overall density.
- B. Within the parameters of subsection A of this section, the city shall control which nonexempt trees are retained in accordance with the Community Development Element and Environmental Stewardship Element of Bonney Lake 2035 ~~community character element of the comprehensive plan~~. The city may require the retention of perimeter

trees, interior trees, or stands of trees. Retained trees may be located in individual lots or in open space tracts.

- C. In any area to be preserved as open space, in addition to requiring retention of nonexempt trees, the city may require plantings sufficient, upon maturity, to partly or wholly reforest the open space area.
- ~~D.~~ Within the parameters of subsection A of this section, the city may require that existing groundcover be retained or replaced in accordance with the Community Development Element and Environmental Stewardship Element of Bonney Lake 2035. ~~community character element of the comprehensive plan.~~
- E. Where Chapter 16.14 BLMC requires landscape buffers, the city may require that trees or groundcover be retained in partial fulfillment of said requirement.
- F. The director(s) may consult an arborist on tree retention. The director(s) shall provide such guidelines and checklists as deemed proper to ensure development does not result in unnecessary cutting of trees.
- G. See also BLMC 16.13.090.

**Section 6.** Section 16.13.060, “Decision criteria on nonresidential development sites” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1171 § 1 is hereby amended to read as follows:

**16.13.060 Decision criteria on nonresidential development sites.**

On commercial, industrial, public, and institutional development sites, the director(s) shall approve or deny clearing permits consistent with the following rules:

- A. Tree retention requirements shall not interfere with reasonable exercise of development rights conferred by the applicable zone. Sufficient clearing shall be allowed to make room for reasonable and required buildings, driveways, walkways, parking, vision clearance areas, utilities, stormwater facilities, and similar improvements. In this context, “reasonable” shall mean that the city will allow at least 75 percent of the lot coverage, impervious surface coverage, or other appropriate measure of site utilization that would be possible without the requirements imposed by this chapter on slopes under 25 percent and at least 25 percent of the lot coverage, impervious surface coverage, or other appropriate measure on slopes over 25 percent.
- B. Within the parameters of subsection A of this section, the city shall control which trees are retained, removed, or replaced in accordance with the Community Development Element and Environmental Stewardship Element of Bonney Lake 2035. ~~community character element of the comprehensive plan.~~ The city may require the retention of perimeter trees, interior trees, or stands of trees. The city may require that nonexempt

trees removed from the site be replaced in accordance with BLMC 16.13.120. Any trees retained or replaced in landscape buffers required by Chapter 16.14 BLMC shall count toward fulfillment of said buffer requirements.

€. Within the parameters of subsection A of this section, the city may require that existing groundcover other than trees be retained or replaced in accordance with the Community Development Element and Environmental Stewardship Element of *Bonney Lake 2035*. ~~community character element of the comprehensive plan.~~

D. See also BLMC 16.13.090.

**Section 7.** Section 18.33.010, “Purpose” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1407 § 1 (Attachment A) is hereby amended to read as follows:

**18.33.010 Purpose.**

Land use and development standards provide for cohesive site development, which is a crucial element in the creation of an Easttown commercial district that has interconnected parking, complementary site design, and a logical infrastructure. The standards included in this chapter build upon the goals and policies established in the Easttown Center Plan and *Bonney Lake 2035* ~~community character and Easttown elements of the Bonney Lake comprehensive plan.~~

**Section 8.** Section 18.36.010, “Purpose” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1364 § 1 is hereby amended to read as follows:

**18.36.010 Purpose.**

The intent of this zone is to implement the commercial and retail core portion of the Downtown Center Plan ~~downtown plan which forms a part of the community character element of the comprehensive plan.~~ Uses within this area should enhance the pedestrian scale of the downtown core and allow for a compact walking environment in which shopping, dining, and recreational opportunities are easily accessible.

**Section 9.** Section 18.37.010, “General intent” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1250 § 7 is hereby amended to read as follows:

**18.37.010 General intent.**

The intent of this zone is to implement the mixed use portion of the Downtown Center Plan ~~downtown plan which forms a part of the community character element of the comprehensive plan.~~ The intended land uses are a mix of high-density dwelling units, offices, cultural activities, and retail sales and services, with protections against retail sales and services becoming dominant. Mixing of uses on the same site is encouraged. This zone

is also intended to provide a degree of buffering between downtown and the surrounding single-family residential neighborhoods.

**Section 10.** Section 18.39.010, “Purpose” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance Nos. 1410 § 1 (Attachment A) is hereby amended to read as follows:

**18.39.010 Purpose.**

Land use and development standards provide for cohesive site development, which is a crucial element in the creation of a midtown commercial district that has interconnected parking, complementary site design, and a logical infrastructure. The standards included in this chapter build upon the goals and policies established in the ~~community character~~ Midtown Center Plan and Bonney Lake 2035. ~~design elements of the Bonney Lake comprehensive plan~~

**Section 11. Severability.** If any one or more section, subsection, or sentence of this ordinance is held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portion of this ordinance and the same shall remain in full force effect.

**Section 12. Effective Date.** This ordinance shall take effect five (5) days after its passage, approval and publication as required by law.

**PASSED BY THE CITY COUNCIL this \_\_\_\_\_ day of \_\_\_\_\_, 2015.**

# Memo

**Date** : September 2, 2015  
**To** : Mayor and City Council  
**From** : Grant Sulham, Planning Commission Chair  
**Re** : **Ordinance D15-91 – Removal of Community Character Element Reference.**

---

On June 30, 2015, the City Council adopted Ordinance 1522 adopting *Bonney Lake 2035* as the comprehensive plan for the City of Bonney Lake superseding all previous version of the comprehensive plan.

One of the changes made with the adoption of the City's new comprehensive plan was the removal of the Community Character Element. The goals and policies of the previous Community Character Element have been primarily included in the Community Development Element and Environmental Stewardship Elements of *Bonney Lake 2035*.

However, multiple sections of the Bonney Lake Municipal Code (BLMC) still refer to the no longer existing Community Character Element. The proposed amendments in D15-91 will correct these references to ensure consistency between the City's development regulations and the City's comprehensive plan.

Planning Commission concludes that the amendments to the City's development regulations contained in this Ordinance ensure consistency between *Bonney Lake 2035* and the City's adopted development regulations in the BLMC.

The Planning Commission voted X-X-X to recommend that the City Council \_\_\_\_\_ Ordinance D15-91.

As required by BLMC 14.40.100, the Planning Commission adopts the following findings of fact in support of its recommendation:

- 1) The City of Bonney Lake Planning Commission held a public hearing on September 2, 2015 to consider the amendments to the City's development regulations contained in this Ordinance as required by BLMC 14.140.080.
- 2) Pursuant to BLMC 14.140.090.B, the approval criterion for amendments to the City's development regulation is consistency with the comprehensive plan and the laws of the state of Washington
- 3) The City published a notice of the public hearing on August 12, 2015 in the Bonney Lake Herald Courier as required by BLMC 14.140.040.D.
- 4) The notice for the public hearing was provided twenty days prior to the hearing consistent with the requirements of BLMC 14.140.040.D.
- 5) The City posted notice of the public hearing at the City's official posting locations on August 12, 2015.
- 6) The City maintains an email list of stakeholders and individuals that requested notification of hearings related to amendments to the City's development regulation and comprehensive plan consistent with *Bonney Lake 2035 - Implementation Element PI-Action-3*.
- 7) The Community Development Department provided notices of the public hearing to all stakeholders and parties identified on this list.
- 8) As provided in WAC 365-196-800(1), the City's development regulations must be consistent with and implement the City's comprehensive plan.
- 9) As provided in further in WAC 365-196-800(1), the term "implement" connotes not only a lack of conflict but also a sufficient scope to fully carry out the goals, policies, standards and directions contained in the comprehensive plan.
- 10) The adoption of this Ordinance is considered a non-project action as defined in WAC 197-11-704(2)(b) under the State Environmental Policy Act (SEPA).
- 11) The Community Development Director acting as the SEPA Responsible Official determined that the proposed amendment is categorically exempt from the SEPA pursuant to WAC197-11-800(19)(b).

- 12) As required by RCW 36.70A.106 and BLMC 14.140.070, the City provided this Ordinance to the Department of Commerce for review and comment by the Department and other State agencies.
- 13) As authorized by RCW 36.70.106(3)(b), the City requested that the Department of Commerce grant expedited review of the proposed amendments to the City's development regulation contained in this Ordinance.
- 14) The Department of Commerce granted expedited review and the review period concluded on August 20, 2015.

# Community Development Department Briefing Memorandum

**Date:** August 24, 2015  
**To:** Planning Commission  
**From:** Jason Sullivan – Senior Planner  
**Re:** **Ordinance D15-94 – Concurrency Amendment – Level of Service Standard.**

---

## **PURPOSE:**

The purpose of this memorandum is to facilitate the Planning Commission’s public hearing on Ordinance D15-94, which update the City’s transportation level of service standards adopted in Chapter 19.02 of the *Bonney Lake Municipal Code* (BLMC).

**SUGGESTED MOTION:** *“I move to recommend that the City Council adopt Ordinance D15-94 amending 19.02.060 updating the City’s transportation level of service standards.*

## **ATTACHMENTS:**

1. Ordinance D15-94
2. Planning Commission Recommendation Memo

## **BACKGROUND:**

The City’s comprehensive plan adopted in 1998, first established the level of service (LOS) standards for the City’s transportation system. This level of service was expressed in the form of a ratio that divides the existing or projected traffic volume by the capacity of the roads crossing a given screenline. This ratio is commonly referred to as a V/C ratio. A screenline is an imaginary line that cuts through several parallel roads to evaluate the combined capability of roads in a given corridor or sector of the City. Screenlines were strategically located to ensure that the road system serving a specific area of the City would have sufficient capacity to accommodate the traffic generated by the forecasted population growth.

The transportation LOS standard established in the 1998 comprehensive plan was incorporated into the Concurrency Management Code as part of Ordinance 791 adopted by the City Council in 1998 and codified as Chapter 19.02 of the *Bonney Lake Municipal Code* (BLMC). The section of Chapter 19.02 BLMC that adopts the 1998 LOS standard has not been amended since its adoption seventeen years ago.

When the City update the transportation plan in 2006, neither the LOS standard adopted by the 1998 comprehensive plan nor the reference in the in the BLMC were updated or adjusted to reflect change to the City's road network (e.g construction of Sky Island, construction of Main Street, etc), changes in the City's incorporated boundaries, or existing traffic volumes.

In order to ensure that the City's transportation system continues has sufficient capacity; the City recently updated its level of services standards. These new standards were included in the Community Mobility Element of *Bonney Lake 2035* adopted by the City Council on June 30, 2015 pursuant to Ordinance 1522.

The new LOS standards address both traffic at a given intersection and traffic along key traffic corridors. As explained in *Bonney Lake 2035* (p. 5-12), the intersection LOS includes a qualitative standard based on how drivers will experience a particular intersection measured the average delay at the intersection ranging from "A" (very little delay) to "F" (long delays and congestion). This standard is based on the overall functionality of the intersection as determined averaging the delay over all legs of the intersection. In order to prevent one failing leg of an intersection from benefiting from higher functioning legs, an additional standard was added to look at the V/C ratio for each leg of the intersection to ensure that none of the legs exceeds a V/C ratio of 1.0.

To evaluate the traffic along key corridors in the City, *Bonney Lake 2035* also adopts the screenline methodology originally established in the 1998 comprehensive plan. While the methodology is the same, the standard was adopted to reflect the current and proposed future road network along with the planned growth over the next 20 years. Based on the project road improvements and future growth, there will be sufficient capacity within the City transportation system based updated LOS standard as provided in the Community Mobility Element.

The proposed amendment in Ordinance D15-94 will amend BLMC 19.20.060 to remove the standard adopted in 1998 and adopt the standards established in *Bonney Lake 2035* by reference.

The proposed amendment is required to ensure the City's development regulations are consistent with and implement the City's comprehensive plan. As provided in WAC 365-196-800(1), the term "implement" connotes not only a lack of conflict but also a sufficient scope to fully carry out the goals, policies, standards and directions contained in the comprehensive plan

**ORDINANCE NO. D15-94**

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF BONNEY LAKE, PIERCE COUNTY, WASHINGTON, AMENDING PORTIONS OF CHAPTER 19.02 OF THE BONNEY LAKE MUNICIPAL CODE TO UPDATE THE LEVEL OF SERVICE STANDARDS.**

**WHEREAS**, on June 30, 2015 the City Council adopted Ordinance 1522 adopting *Bonney Lake 2035* as the comprehensive plan for the City of Bonney Lake superseding all previous version of the comprehensive plan; and

**WHEREAS**, as *Bonney Lake 2035* included the Community Mobility Element which updated the transportation level of services for the City of Bonney Lake;

**WHEREAS**, the City is required to ensure consistency between the adopted comprehensive plan and adopted development regulations;

**NOW THEREFORE**, the City Council of Bonney Lake, Washington, do ordain as follows:

**Section 1. Findings of Fact and Conclusions.** The City Council adopts the following findings of fact in support of its decision to adopt the amendments to the *Bonney Lake Municipal Code* (BLMC) contained in this Ordinance:

- 1) The City of Bonney Lake Planning Commission held a public hearing on September 2, 2015 to consider the amendments to the City's development regulations contained in this Ordinance as required by BLMC 14.140.080.
- 2) Pursuant to BLMC 14.140.090.B, the approval criterion for amendments to the City's development regulation is consistency with the comprehensive plan and the laws of the state of Washington
- 3) The City of Bonney Lake Planning Commission found that the amendments to the City's development regulations contained in this Ordinance \_\_\_\_\_ between *Bonney Lake 2035* and the City's adopted development regulations in the BLMC.
- 4) The City of Bonney Lake Planning Commission found that the amendments to the City's development regulations contained in this Ordinance are \_\_\_\_\_ the laws of the state of Washington.
- 5) The City published a notice of the public hearing on August 12, 2015 in the Bonney Lake Herald Courier as required by BLMC 14.140.040.D.
- 6) The notice for the public hearing was provided twenty days prior to the hearing consistent with the requirements of BLMC 14.140.040.D.
- 7) The City posted notice of the public hearing at the City's official posting locations on August 12, 2015.

- 8) The City maintains an email list of stakeholders and individuals that requested notification of hearings related to amendments to the City's development regulation and comprehensive plan consistent with *Bonney Lake 2035 - Implementation Element PI-Action-3*.
- 9) The Community Development Department provided notices of the public hearing to all stakeholders and parties identified on this list.
- 10) The adoption of this Ordinance is considered a non-project action as defined in WAC 197-11-704(2)(b) under the State Environmental Policy Act (SEPA).
- 11) The Community Development Director acting as the SEPA Responsible Official determined that the proposed amendment is categorically exempt from the SEPA pursuant to WAC197-11-800(19)(b).
- 12) As required by RCW 36.70A.106 and BLMC 14.140.070, this the City provided this Ordinance to the Department of Commerce for review and comment by the Department and other State agencies.
- 13) As authorized by RCW 36.70.106(3)(b), the City requested that the Department of Commerce grant expedited review of the proposed amendments to the City's development regulation contained in this Ordinance.
- 14) The Department of Commerce granted expedited review and the review period concluded on August 24, 2015.

**Section 2.** Section 19.02.060, "Level of Service Standards" of the Bonney Lake Municipal Code and the corresponding portion of Ordinance Nos. 1025 § 10 is hereby amended to read as follows:

**19.02.060 Level of service standards.**

The level of service standards identified in Section 5.5 of the Community Mobility Element of *Bonney Lake 2035* ~~below~~ shall be enforced by the provisions of concurrency management.:

~~A. Roads and Transportation Facilities. The level of service shall be measured in terms of the peak hour volume to capacity ratios (V/C), averaged over the screenline segments identified in the transportation element of the comprehensive plan. The standard for road screenlines connecting to the SR 410 corridor average V/C shall be no more than 0.45; and the standard for all other roads average V/C shall be no more than 0.25. The city does not provide concurrency management for State Highway 410. Level of service for the State Highway 410 is established by the Washington State Department of Transportation.~~

**Section 3. Severability.** If any one or more section, subsection, or sentence of this ordinance is held to be unconstitutional or invalid, such decision shall not affect the validity of the remaining portion of this ordinance and the same shall remain in full force effect.

**Section 4. Effective Date.** This ordinance shall take effect five (5) days after its passage, approval and publication as required by law.

**PASSED BY THE CITY COUNCIL this \_\_\_\_\_ day of \_\_\_\_\_, 2015.**

\_\_\_\_\_  
Neil Johnson, Jr., Mayor

AUTHENTICATED:

\_\_\_\_\_  
Harwood T. Edvalson, MMC, City Clerk

APPROVED AS TO FORM:

\_\_\_\_\_  
Kathleen Haggard, City Attorney

# Memo

**Date** : September 2, 2015  
**To** : Mayor and City Council  
**From** : Grant Sulham, Planning Commission Chair  
**Re** : **Ordinance D15-94 – Concurrency Amendment – Level of Service Standard.**

---

The City’s comprehensive plan adopted in 1998, first established the level of service (LOS) standards for the City’s transportation system. This level of service was expressed in the form of a ratio that divides the existing or projected traffic volume by the capacity of the roads crossing a given screenline. This ratio is commonly referred to as a V/C ratio. A screenline is an imaginary line that cuts through several parallel roads to evaluate the combined capability of roads in a given corridor or sector of the City. Screenlines were strategically located to ensure that the road system serving a specific area of the City would have sufficient capacity to accommodate the traffic generated by the forecasted population growth.

The transportation LOS standard established in the 1998 comprehensive plan was incorporated into the Concurrency Management Code as part of Ordinance 791 adopted by the City Council in 1998 and codified as Chapter 19.02 of the *Bonney Lake Municipal Code* (BLMC). The section of Chapter 19.02 BLMC that adopts the 1998 LOS standard has not been amended since its adoption seventeen years ago.

When the City update the transportation plan in 2006, neither the LOS standard adopted by the 1998 comprehensive plan nor the reference in the in the BLMC were updated or adjusted to reflect change to the City’s road network (e.g construction of Sky Island, construction of Main Street, etc), changes in the City’s incorporated boundaries, or existing traffic volumes.

In order to ensure that the City’s transportation system continues has sufficient capacity; the City recently updated its level of services standards. These new standards were included in the Community Mobility Element of *Bonney Lake 2035* adopted by the City Council on June 30, 2015 pursuant to Ordinance 1522.

The new LOS standards address both traffic at a given intersection and traffic along key traffic corridors. As explained in *Bonney Lake 2035* (p. 5-12), the intersection LOS includes a qualitative standard based on how drivers will experience a particular intersection measured the average delay at the intersection ranging from “A” (very little delay) to “F” (long delays and congestion). This standard is based on the overall functionality of the intersection as determined averaging the delay over all legs of the intersection. In order to prevent one failing leg of an intersection from benefiting from higher functioning legs, an additional standard was added to look at the V/C ratio for each leg of the intersection to ensure that none of the legs exceeds a V/C ratio of 1.0.

To evaluate the traffic along key corridors in the City, *Bonney Lake 2035* also adopts the screenline methodology originally established in the 1998 comprehensive plan. While the methodology is the same, the standard was adopted to reflect the current and proposed future road network along with the planned growth over the next 20 years. Based on the project road improvements and future growth, there will be sufficient capacity within the City transportation system based updated LOS standard as provided in the Community Mobility Element.

The proposed amendment in Ordinance D15-94 will amend BLMC 19.20.060 to remove the standard adopted in 1998 and adopt the standards established in *Bonney Lake 2035* by reference.

The proposed amendment is required to ensure the City’s development regulations are consistent with and implement the City’s comprehensive plan. As provided in WAC 365-196-800(1), the term “implement” connotes not only a lack of conflict but also a sufficient scope to fully carry out the goals, policies, standards and directions contained in the comprehensive plan

The Planning Commission concluded that the amendments to the City’s development regulations contained in this Ordinance ensure consistency between *Bonney Lake 2035* and the City’s adopted development regulations in the BLMC. The Planning Commission voted X-X-X to recommend that the City Council \_\_\_\_\_ Ordinance D15-94.

As required by BLMC 14.40.100, the Planning Commission adopts the following findings of fact in support of its recommendation:

- 1) The City of Bonney Lake Planning Commission held a public hearing on September 2, 2015 to consider the amendments to the City’s development regulations contained in this Ordinance as required by BLMC 14.140.080.
- 2) Pursuant to BLMC 14.140.090.B, the approval criterion for amendments to the City’s development regulation is consistency with the comprehensive plan and the laws of the state of Washington

- 3) The City published a notice of the public hearing on August 12, 2015 in the Bonney Lake Herald Courier as required by BLMC 14.140.040.D.
- 4) The notice for the public hearing was provided twenty days prior to the hearing consistent with the requirements of BLMC 14.140.040.D.
- 5) The City posted notice of the public hearing at the City's official posting locations on August 12, 2015.
- 6) The City maintains an email list of stakeholders and individuals that requested notification of hearings related to amendments to the City's development regulation and comprehensive plan consistent with *Bonney Lake 2035 - Implementation Element PI-Action-3*.
- 7) The Community Development Department provided notices of the public hearing to all stakeholders and parties identified on this list.
- 8) As provided in WAC 365-196-800(1), the City's development regulations must be consistent with and implement the City's comprehensive plan.
- 9) As provided in further in WAC 365-196-800(1), the term "implement" connotes not only a lack of conflict but also a sufficient scope to fully carry out the goals, policies, standards and directions contained in the comprehensive plan.
- 10) The adoption of this Ordinance is considered a non-project action as defined in WAC 197-11-704(2)(b) under the State Environmental Policy Act (SEPA).
- 11) The Community Development Director acting as the SEPA Responsible Official determined that the proposed amendment is categorically exempt from the SEPA pursuant to WAC 197-11-800(19)(b).
- 12) As required by RCW 36.70A.106 and BLMC 14.140.070, the City provided this Ordinance to the Department of Commerce for review and comment by the Department and other State agencies.
- 13) As authorized by RCW 36.70.106(3)(b), the City requested that the Department of Commerce grant expedited review of the proposed amendments to the City's development regulation contained in this Ordinance.
- 14) The Department of Commerce granted expedited review and the review period concluded on August 20, 2015.

# Community Development Department Briefing Memorandum

**Date:** August 28, 2015  
**To:** Planning Commission  
**From:** Ryan Harriman, AICP Planner  
**Re:** **Ordinance XXXX– Wireless Communication Facilities**

---

## **PURPOSE:**

The Washington Cities Insurance Authority (WCIA) performs an annual review and audit of the City of Bonney Lake, and in 2014 this entailed a land use liability audit. In sum, this resulted in several recommendations for code and policy changes for consistency with recent court and Growth Management Hearings Board decisions, and new statutory provisions. Staff has also identified portions of code which would benefit from an update, mostly to clarify and streamline the review, approval, and appeal processes. In this instance, Staff has proposed amending Bonney Lake Municipal Code (BLMC), to reflect changes to Wireless Telecommunications Facilities.

## **ATTACHMENTS:**

1. Ordinance XXXX

## **BACKGROUND:**

The tremendous growth in personal wireless services has created an increased demand for new wireless antennas and equipment. It is expected that carriers will continue to roll out new facilities in Bonney Lake to accommodate the rapidly growing need for increased capacity and speed. Wireless telecommunications facilities (WCF) are regulated by federal, state and local laws. Federal law significantly limits the City's ability to regulate WCFs. Under federal law, a local agency's decisions cannot have the effect of prohibiting the provision of wireless service or unreasonably discriminating among wireless service providers. Also, under federal law, the City may not regulate the placement, construction or modification of wireless communications facilities on the basis of radio frequency (RF) emissions, so long as the facilities comply with the Federal

Communications Commission (FCC) regulations concerning such emissions. Despite federal limitations, cities historically have retained ability to regulate the aesthetic of WCFs, including factors such as height and property line setbacks. However, federal law developments continue to erode that ability.

## **The Spectrum Act**

The latest federal law governing WCFs was adopted in 2012 as part of the 2012 Middle Class Tax Act. This federal legislation contained Section 6409, now referred to as the Spectrum Act, Page 2 and codified at 47 U.S.C. § 1455. The Spectrum Act was intended to facilitate the telecommunication industry's rapid deployment of wireless infrastructure by requiring local governments to approve any application that seeks to modify an existing wireless telecommunication facility that does not "substantially change" the existing facility.

As the Spectrum Act did not contain specific definitions, the implementation of this Section initially was open to interpretation by each local government. Furthermore, while the Act states that a local government cannot deny and shall approve an eligible facility request, it provides no guidance as to the required process or time limits in which a local government has to act. To bridge this gap, the FCC recently promulgated rules which include necessary definitions, processing requirements, timelines and remedies for applications that seek to modify an existing wireless telecommunication facility in accordance with the Spectrum Act.

The FCC's procedural rules went into effect on April 9, 2015. The FCC rules are subject to several legal challenges, though it appears they will remain in effect during the litigation. These FCC rules are binding on local governments, unless and until a court orders otherwise.

## **DISCUSSION**

Section 6409 of the Spectrum Act provides that the City "may not deny, and shall approve any eligible facilities request for a modification of an existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station." (47 U.S.C.

§1455(a)(1).) Section 6409 defines "eligible facilities request" as "any request for modification of an existing wireless tower or base station that involves –

- (a) collocation of new transmission equipment;
- (b) removal of transmission equipment; or
- (c) replacement of transmission equipment."

(47 U.S.C. § 1455 (a)(2).) The statute does not define any of the other terms, most importantly "substantially change", nor does it explain the process the City may use to evaluate whether an application qualifies for federal protection under this section.

On December 17, 2014, the FCC adopted regulations implementing Section 6409, codified at 47 C.F.R. § 1.40001, which took effect on April 9, 2015. The regulations were intended to clarify which types of WCF projects are covered by the Spectrum Act. The regulations define terms that were used but not defined in the Spectrum Act, including “eligible support structure”, “existing”, “substantial change” and “wireless tower”. The regulations give applicants the right to assert in writing that a project is covered by the Spectrum Act.

If the project falls within the definition of an eligible facilities request, the City must act on it within 60 days from the date an application is submitted, unless the City determines the request is not covered by the Spectrum Act. The 60 day time frame may be tolled by the City for incomplete applications, provided the City notifies applicant within 30 days of submittal. Failure of the City to act on the application within the allowed timeframe results in the automatic approval of such application.

**ORDINANCE XXXX**

**AN ORDINANCE OF THE CITY OF BONNEY LAKE, WASHINGTON,  
AMENDING CHAPTER 18.50 OF THE BONNEY LAKE MUNICIPAL  
CODE RELATING TO THE REGULATION OF PERSONAL WIRELESS  
TELECOMMUNICATIONS FACILITIES**

**WHEREAS**, the City Council of the City of Bonney Lake wishes to regulate wireless communications facilities within the City in full compliance with the laws and regulations of the State of Washington and the United States, including the State Environmental Policy Act, the Telecommunications Act of 1996, and the Middle Class Tax Relief and Job Creation Act of 2012.

**WHEREAS**, in 1934, Congress enacted the Communications Act of 1934, creating the Federal Communications Commission (the “FCC”) and granting it authority over common carriers engaged in the provision of interstate or foreign communications services; and

**WHEREAS**, in 1996 Congress enacted Pub. L. No. 104-104, 110 Stat. 70 (the “1996 Act”), amending the Communications Act of 1934 and implementing regulations applicable to both wireless and wireline communications facilities for the purpose of removal of barriers to entry into the telecommunications market while preserving local government zoning authority except where specifically limited under the 1996 Act; and

**WHEREAS**, in the 1996 Act, Congress imposed substantive and procedural limitations on the traditional authority of state and local governments to regulate the location, construction, and modification of wireless facilities and incorporated those limitations into the Communications Act of 1934; and

**WHEREAS**, the City has adopted regulations that have been codified as part of the Municipal Code of the City establishing local requirements for the location, construction, and modification of wireless facilities; and

**WHEREAS**, in 2012 Congress passed the “Middle Class Tax Relief and Job Creation Act of 2012” (the “Spectrum Act”) (PL-112-96; codified at 47 U.S.C. § 1455(a)); and

**WHEREAS**, Section 6409 (hereafter “Section 6409”) of the Spectrum Act implements additional substantive and procedural limitations upon state and local government authority to regulate modification of existing wireless antenna support structures and base stations; and

**WHEREAS**, Congress through its enactment of Section 6409 of the Spectrum Act, has mandated that local governments approve, and cannot deny, an application requesting modification of an existing tower or base station if such modification does not substantially change the physical dimensions of such tower or base station; and

**WHEREAS**, the 1996 Act empowers the FCC to prescribe such rules and regulations as may be necessary in the public interest to carry out the provisions of the 1996 Act, and subsequently added portions of the 1996 Act such as Section 6409; and

**WHEREAS**, the FCC, pursuant to its rule making authority, adopted and released a Notice of Proposed Rulemaking in September of 2013 (In re Acceleration of Broadband Deployment by Improving Wireless Facilities Siting Policies, WT Docket Nos. 13-238, 13-32; WC Docket No. 11-59; FCC 13-122) which focused in part upon whether or not the FCC should adopt rules regarding implementation of Section 6409; and

**WHEREAS**, on October 21, 2014, the FCC issued its report and order, WT Docket Nos. 13-238, 13-32; WC Docket No. 11-59; FCC 14-153, in the above described proceeding (the “Report and Order” or “Order”) clarifying and implementing statutory requirements related to state and local government review of infrastructure siting, including Section 6409, with the intent of facilitating and expediting the deployment of equipment and infrastructure to meet the demand for wireless capacity; and

**WHEREAS**, the rules adopted by the FCC in its Report and Order implementing Section 6409 are intended by the FCC to spur wireless broadband deployment, in part, by facilitating the sharing of infrastructure that supports wireless communications through incentives to collocate on structures that already support wireless facilities; and

**WHEREAS**, the Report and Order also adopts measures that update the FCC’s review processes under the National Environmental Policy Act of 1969 (“NEPA”) and section 106 of the National Historic Preservation Act of 1966 (“NHPA”), with a particular emphasis on accommodating new wireless technologies that use smaller antennas and compact radio equipment to provide mobile voice and broadband service; and

**WHEREAS**, on January 5, 2015, the FCC released an Erratum to the Report and Order making certain amendments to the provisions of the Report and Order related to NEPA and Section 106 of the NHPA; and

**WHEREAS**, that part of the Report and Order related to implementation of Section 6409, amends 47 C.F.R. Part 1 (PART 1 – PRACTICE AND PROCEDURE) by adding new Subpart CC § 1.40001 and establishing both substantive and procedural limitations upon local government application and development requirements applicable to proposals for modification to an existing antenna support structure or an existing base station (“Eligible Facility Request Rules”); and

**WHEREAS**, the Order, among other things, defines key terms utilized in Section 6409, establishes application requirements limiting the information that can be required from an applicant, implements a 60 shot clock and tolling provisions, establishes a deemed approved remedy for applications not timely responded to, requires cities to approve a project permit application requesting modification of an existing tower or base station that does not substantially change the physical dimensions of such tower or base station, and establishes development standards that govern such proposed modifications; and

**WHEREAS**, the Report and Order provides that the Eligible Facility Request Rules will be effective 90 days following publication in the Federal Register; and

**WHEREAS**, the Order was published in the Federal Register on Thursday, January 8, 2015, Federal Register; Vol. 80; No. 5, resulting in the Eligible Facility Request Rules becoming effective on April 8, 2015; and

**WHEREAS**, the Order is subject to appeal, however, even if an appeal is filed, the appeal will not automatically result in delay of implementation of the Eligible Facility Request Rules; and

**WHEREAS**, the Bonney Lake City Council finds that it is required under Section 6409 of the Spectrum Act and the Eligible Facility Request Rules established in the Order, to adopt and implement local development and zoning regulations that are consistent with Section 6409 and the Order; and

**WHEREAS**, an Environmental Checklist for a non-project action was prepared under the State Environmental Policy Act (RCW Chapter 43.21.C), pursuant to Washington Administrative Code Chapter 197-11, and a determination of Non-Significance (“DNS”) was issued on the \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_; and

**WHEREAS**, in accordance with RCW 36.70A.106 and WAC 365-196-630, a notice of intent to adopt the proposed new development regulations was sent to the State of Washington Department of Commerce and to other state agencies to allow for a 60-day review and comment period, which comment period ended prior to adoption of this ordinance; and

**WHEREAS**, on the \_\_\_ day of \_\_\_\_\_, 20\_\_\_\_ the Planning Commission held a duly noticed public meeting related to the proposed interim development and zoning regulations set forth in the proposed ordinance; and

**WHEREAS**, the City Council considered the proposed development and zoning regulations on the \_\_\_ day of \_\_\_\_\_, 20\_\_\_\_; and

**WHEREAS**, the City Council finds that the proposed development and zoning regulations are reasonable and necessary in order bring the City’s development regulations into compliance with the mandate imposed upon the City by Congress pursuant to Section 6409 and the regulations imposed upon the City by the FCC pursuant to its Report and Order, and are therefore in the public interest;

**NOW, THEREFORE**, be it ordained by the City Council of the City of Bonney Lake:

**Section 1.** Chapter 18.50.018 of the Bonney Lake Municipal Code is hereby recodified as “Eligible Facilities Modification.”

**18.50.018- Eligible Facilities Modification**

- A. This section sets forth the submittal requirements for an eligible facilities modification application. The purpose of the submittal requirements is to ensure that the City has all information and documentation that is reasonable necessary to determine if the applicant's proposed facilities modification will substantially change the physical dimensions of an eligible support structure. The submittal requirements are not intended to require the applicant to establish the need for the proposed modifications or to justify the business decision to propose such modifications.
- B. The City shall review an eligible facilities modification application to determine if the proposed facilities modification is subject to this chapter, and if so, if the proposed facilities modification is considered a substantial change as defined in BLMC 18.50.018(J).
- C. An eligible facilities application shall be approved, and an eligible facilities permit issued, upon determination by the City that the proposed facilities modification is subject to this chapter and does not constitute a substantial change as defined in BLMC 18.50.018(J).
- D. An eligible facilities application shall be denied upon determination by the City that the proposed facilities modification is not subject to this chapter or will constitute a substantial as defined in BLMC 18.50.018(J).
- E. An application that has been deemed granted, pursuant to BLMC 14.40.080.B, shall be and constitute the equivalent of an eligible facilities modification permit. Eligible facilities modifications deemed compete shall be subject to generally applicable enforcement and compliance requirements in the same manner as an eligible facilities modification permit issued pursuant to this chapter.
- F. A denial of an eligible facilities modification application shall set forth in writing the reasons for the denial and shall be provided to the applicant.
- G. Any eligible facilities modification permit issued pursuant to this chapter, and any application that has been deemed approved, shall be and is conditioned upon compliance with any generally applicable building, structural, electrical, and safety codes and other laws codifying objective standards reasonably related to health and safety. Violation of any such applicable code or standard shall be deemed to be a violation of the eligible facilities modification or deemed approved application.
- H. An eligible facilities modification permit issued pursuant to this chapter, and any deemed approve application, shall be valid for a term of 180 days from the date of issuance, or the date the application is deemed approved.
- I. Notwithstanding any other provisions in the City code, no administrative appeal process is provided for review of a decision to condition, deny or approve an application. The applicant and the City retain any and all remedies that are available at law or in equity, including by way of example and not limitation, those remedies set forth in the FCC Eligible Facilities Request Rules and remedies available under the Land Use Petition Act. In the event no other time period is provided at law for bringing an action for a remedy,

any action challenging a denial of an application or notice of a deemed approved remedy, shall be brought within thirty (30) days following the date of denial or following the date of notification of the deemed approved remedy.

J. Substantial Change Criteria.

A proposed facilities modification will substantially change the physical dimensions of an eligible support structure if it meets any of the following criteria:

1. Increasing the height of the tower by more than 10% or by the height of one additional antenna array with separation from the nearest existing antenna not to exceed twenty (20) feet, whichever is greater;
2. Increasing the height of other eligible support structures by more than 10% or more than ten (10) feet, whichever is greater;
3. Changes in height shall be measured from the original support structure in cases where deployments are or will be separated horizontally, such as on buildings' rooftops; in other circumstances, changes in height shall be measured from the dimensions of the tower or base station, inclusive of originally approved appurtenances and any modifications that were approved prior to February 22, 2012.
4. Adding an appurtenance to the body of the tower that would protrude from the edge of the tower more than twenty feet, or more than the width of the tower structure at the level of the appurtenance, whichever is greater;
5. Adding an appurtenance to the body of the structure that would protrude from the edge of the structure by more than six feet;
6. Installation of more than the standard number of new equipment cabinets for the technology involved, but not to exceed four cabinets; or, for towers in the public rights-of-way and base stations, it involves installation of any new equipment cabinets on the ground if there are no pre-existing ground cabinets associated with the structure, or else involves installation of ground cabinets that are more than 10% larger in height or overall volume than any other ground cabinets associated with the structure;
  - a. it entails any excavation or deployment outside the current site; or
  - b. it would defeat the concealment elements of the eligible support structure; or
  - c. it does not comply with conditions associated with the siting approval of the construction or modification of the eligible support structure or base station equipment, provided however that this limitation does not apply to any modification that is noncompliant only in a manner that would not exceed the thresholds identified in this chapter.

**Section 2.** BLMC Section 14.30.010, "Permits by Type" of the Bonney Lake Municipal Code and Ordinance No. 1505 § 3 is hereby amended to read as follows:

**14.30.010 Permits by Type**

<b>Type 1</b>	<b>Type 2</b>	<b>Type 3</b>	<b>Type 4</b>
Building Permits	Sign Variances	Variances	Zoning Reclassifications
Temporary Permits	Short Plats	Conditional Use Permits	Plat Alterations
Sign Permits	SEPA Review	Preliminary Plats	Plat Vacations
Land Clearing Permits	Commercial Site Plan	Shoreline Conditional Use Permit	
Accessory Dwelling Unit Permits	Shoreline Substantial Development Permits	Shoreline Variances	
Boundary Line Adjustments	Environmental Critical Area Permits		
Wireless Communication Facility Co- Location Permits	Design Review		
<u>Wireless Communication Facility – Eligible Facility Modification</u>			
Shoreline Letters of Exemption			

**Section 3.** BLMC Section 18.50.001, “Purpose” of the Bonney Lake Municipal Code and Ordinance No. 952 § 4 is hereby amended to read as follows:

**18.50.001 Purpose.**

~~A. These standards were developed to~~ The purpose of this chapter is to:

A. Protect the public health, safety, and welfare, to protect property values and minimize visual impact while furthering the development of enhanced telecommunications services in the city. ~~These standards were designed to~~

B. Comply with the Telecommunications Act of 1996.

C. ~~The provisions of this chapter are not intended to and shall not be interpreted to prohibit or to~~ Ensure that the regulations to not have the effect of prohibiting personal wireless services.

D. Ensure this chapter shall not be is not applied in such a manner as to unreasonably discriminate between providers of functionally equivalent personal wireless services.

~~B. To the extent that any provision of this chapter is inconsistent or conflicts with any other city ordinance, this chapter shall control. Otherwise, this chapter shall be construed consistently with the other provisions and regulations of the city.~~

~~C. In reviewing any application to provide personal wireless service or to install personal wireless service facilities, the city shall act within a reasonable period of time, taking into account the nature and scope of the application. Any decision to deny an application shall be in writing, supported by substantial evidence contained in a written record. The city shall approve, approve with conditions, or deny the application in accordance with this title and in accordance with the general purpose of the adopted Bonney Lake comprehensive plan and other applicable ordinances~~

E. Provide for a wide range of locations and options for wireless communication providers while minimizing the unsightly characteristics associated with wireless communication facilities and to encourage creative approaches in locating wireless communication facilities which will blend in with the surroundings of such facilities.

F. Establish procedural requirements and substantive criteria applicable to review and approval or denial of applications for an eligible facilities modification;

G. Ensure that application submittal requirements are related to information reasonably necessary to the determination of whether or not the proposed modification will result in a substantial change in the physical dimensions of the eligible support structure;

- H. Preserve the City’s right to continue to enforce and condition approvals under this chapter on compliance with generally applicable building, structural, electrical, and safety codes and with other laws codifying objective standards reasonably related to health and safety;
- I. Implement Section 6409 of the Middle Class Tax Relief & Job Creation Act of 2012, commonly referred to as Spectrum Act, which requires the City to approve modifications to existing wireless tower or base station that does not substantially change the physical dimensions of such tower or base station; and
- J. To provide for termination of eligible facilities modifications approved pursuant to this chapter, as nonconforming structures in the event that subsection 6409(a) of the Spectrum Act is found to be unconstitutional or otherwise determined to be invalid or unenforceable and such modifications would otherwise have been in derogation of development regulations in place at the time of receipt of a completed application.

**Section 4.** BLMC Section 18.50.003, “Exemptions” of the Bonney Lake Municipal Code and Ordinance No. Ord. 952 § 4 are hereby amended to read as follows:

**18.50.003 Exemptions.**

The following are exempt from the provisions of this chapter and shall be permitted in all zones:

- A. Industrial processing equipment and scientific or medical equipment using frequencies regulated by the FCC.
- B. Antennas and related equipment no more than three feet in height that are being stored, shipped, or displayed for sale.
- C. Radar systems for military and civilian communication and navigation.
- D. Wireless radio utilized for temporary emergency communications in the event of a disaster.
- ~~E. Licensed amateur (ham) radio station antenna, subject to height regulations as per Wireless Communication Facilities located in RC-5, R-1, R-2, R-3 and C-1 Zones, Figure 1, Appendix, Page 28 of Ordinance 746, available in the office of the city clerk.~~
- ~~F. Satellite dish antennas less than two meters in diameter, including direct to home satellite services, when used as a secondary use of the property.~~
- E. Routine maintenance or repair of a personal wireless service facility and related equipment (excluding structural work or changes in height or dimensions of antennas, towers, or buildings); provided, that compliance with the standards of this chapter are maintained.

- F. Subject to compliance with all other applicable standards of this chapter, a building permit application need not be filed for emergency repair or maintenance of a personal wireless service facility until 14 calendar days after the completion of such emergency activity.
- G. A COW or other temporary personal wireless telecommunications facility shall be permitted for a maximum of 30 days or during the time of an emergency declared by the city.
- H. Structures and facilities maintained and operated by public entities for emergency, police or fire communication, or for public utility operations.
- I. An antenna that is designed to receive or send direct broadcast satellite service and or broadband signals or other means for providing internet service including direct to home satellite services and that is 1 meter or less in diameter or diagonal measurement and when the antenna is attached to the residence or business that is utilizing the service
- J. An antenna that is designed to receive video programming services via multipoint distribution services including multi-channel multipoint distribution services instructional television fixed services and local multipoint distribution services and that is one (1) meter or less in diameter or diagonal measurement.
- K. An antenna that is designed to receive television broadcast signals.
- L. Antennas for the receiving and sending of amateur radio devices or HAM radios provided that the antennas meet the height requirements of the applicable zoning district and are owned and operated by a Federally licensed amateur radio station operator or are used exclusively for receive only antennas In order to reasonably accommodate licensed amateur radio operators as required by Federal Code of Regulations 47 CFR Part 97 as amended and Order and Opinion PRB 1 of the Federal Communication Commission of September 1985 and RCW 3251A 260 a licensed amateur radio operator may locate a tower not to exceed the height requirements of the applicable zoning district provided the following requirements are met for such towers located in a residentially zoned district.
  - 1. The tower and any antennas located thereon shall not have any lights of any kind on it and shall not be illuminated either directly or indirectly by any artificial means.
  - 2. The color of the tower and any antennas located thereon must all be the same and such that it blends into the sky to the extent allowed under requirements set forth by the Federal Aviation Administration.
  - 3. No advertising logo trademark figurine or other similar marking or lettering shall be placed on the tower or any wireless communication facilities mounted or otherwise attached thereto or any building used in conjunction therewith.

4. The tower shall be located a distance equal to or greater than its height from any existing residential structure located on adjacent parcels of property including any attached accessory structures.
  5. A tower must be at least three quarters of its height from any property line on the parcel of property on which it is located unless a licensed engineer certifies that the tower will not collapse or that it is designed in such a way that in the event of collapse it falls within itself and in that event it must be located at least one third of its height from any property line.
  6. No signs shall be used in conjunction with the tower except for one sign not larger than as required by Federal regulations.
  7. Towers shall not be leased or rented to commercial users and shall not otherwise be used for commercial purposes and
  8. All towers must meet all applicable State and Federal statutes rules and regulations including obtaining a building permit from the City, if necessary
- O. Any wireless internet facility that is owned and operated by a government entity
- P. Antennas and related equipment no more than 3 feet in height that are being stored shipped or displayed for sale

**Section 5.** BLMC Section 18.50.010, “Wireless communications facilities in RC-5, R-1, R-2, R-3 and C-1 zones” of the Bonney Lake Municipal Code and Ordinance No. 1131 § 2 is hereby amended to read as follows:

**18.50.010 Wireless communications facilities in RC-5, R-1, R-2, R-3 and C-1 zones.<sup>z</sup>**

Wireless communications facilities permitted as principal or accessory uses are subject to the provisions of this chapter and the following requirements:

A. Accessory antenna devices, parabolic antennas two feet in diameter or less, omni-directional antennas less than ~~six~~ eight feet in length, directional antennas five feet or less in height with a combined surface area of not more than 580 square inches as viewed from any one point, and camouflaged antennas are permitted subject to the design criteria set forth in BLMC 18.50.012 and subject to the following criteria:

1. The antenna is attached to an existing structure; and
2. The antenna does not extend more than ~~40~~ 16 feet above the top of the structure.

B. Freestanding parabolic antennas greater than two feet in diameter and associated support structure are subject to the design criteria set forth in BLMC 18.50.012 and subject to meeting the following criteria:

1. The antenna and associated support structure are not located within any required landscaped setbacks, front or side yard setback, or in the area located between the front setback line and the front of the building; and

2. The antenna and associated support structure does not extend more than 16 feet above the adjoining grade.

C. Attached or freestanding antennas and associated support structures which are not specifically permitted under ~~subsections A or B of this section~~ BLMC 18.50.010(A) and BLMC 18.50.010(B) or which exceed the associated criteria shall comply with the following requirements:

1. The antenna and support structure shall be subject to the maximum building height for the corresponding zone in which it is located. Said height restriction shall not be subject to granting of a variance;

2. The antenna and associated support structure shall not be located within any required landscaped setback, front or side yard setback, or in the area located between the front setback line and the front of the building;

3. The antenna and associated structure shall comply with required building setbacks and shall be setback from the required side yard setback an additional one foot for each foot of height over 10 feet; and

4. No more than one freestanding support structure shall be permitted per lot.

D. Development standards for monopole I:

1. Antennas equal to or less than fifteen feet in height or up to four inches in diameter may be a component of a monopole I facility. Antennas which extend above the wireless communications support structure shall not be calculated as part of the height of the monopole I wireless communications support structure. For example, the maximum height for a monopole I shall be sixty feet and the maximum height of antennas which may be installed on the support structure could be sixteen feet, making the maximum permitted height of the support structure and antennas seventy-six feet (sixty feet plus sixteen feet).

2. Collocation on an existing support structure shall be permitted.

3. The shelter or cabinet used to house radio electronics equipment and the associated cabling connecting the equipment shelter or cabinet to the monopole I facilities shall be concealed, camouflaged or placed underground. Monopole I facilities shall be subject to design review per Chapter 14.95.

4. Monopole I facilities shall be landscaped in conformance with the requirements of this Chapter and Chapter 16.14.

5. Monopole I facilities zone shall be set back a distance equal to four times the height of the wireless communication support structure from all public schools.
6. A distance equal or greater than one thousand three hundred twenty feet shall separate monopole I from each other and from monopole II and lattice tower facilities.
7. A fence, sufficient to prevent entry to the facility by unauthorized persons shall be provided.
8. An applicant for a permit must demonstrate that the height requested is the minimum necessary to provide the proposed service in the area served.
9. A conditional use permit is required for a monopole I in a residential zone if over 35-feet in height.

**Section 6.** BLMC Section 18.50.011, “Wireless communications facilities in C-2, C-3, combined C-2/C-3, M-1, public facilities, DC and DM zones.” of the Bonney Lake Municipal Code and Ordinance Nos 1155 § 12, 2005; Ord. 952 § 4, 2002; Ord. 746 § 16, 1997, is hereby renamed “Wireless communications facilities in C-2, Easttown, Midtown, public facilities, DC and DM zones” and amended to read as follows:

**18.50.011 Wireless communications facilities in C-2, Easttown, Midtown, public facilities, DC and DM zones.**

Wireless communications facilities ~~permitted as principal or accessory uses or by conditional use permit~~ are subject to the provisions of this chapter and the following requirements:

~~A. The following facilities are permitted as accessory uses in C-2, C-3, combined C-2/C-3, M-1, Easttown, Midtown, public facilities, DC and DM zones subject to other provisions of this chapter and the following requirements:~~

A. Macro, Micro, and Mini Cell – Site Standards

1. Attached accessory antenna devices, parabolic antennas two feet or less in diameter, omni-directional antennas ~~six~~eight feet or less in length, directional antennas ~~five~~eight feet or less in height with a combined surface area of not more than 580 square inches as viewed from any one point, and stealth antennas, and not extending more than ~~15~~16 feet above the roof surface of the structure;

2. Attached parabolic antennas greater than two feet in diameter, omni-directional antennas greater than six feet in length, and directional antennas greater than ~~five~~eight feet in height with a combined surface area of more than 580 square inches as viewed from any one point shall also comply with the following requirements:

~~3.-a.~~ The antenna and associated support structure shall be set back two feet from any exterior building wall for every one foot of height measured from the surface of the roof,

except when incorporated as an architectural feature of the building or screened from view from any public right-of-way or residential zone.

4. The shelter or cabinet used to house radio electronic equipment shall be contained wholly within a building or structure, or otherwise appropriately concealed, camouflaged or located underground.

#### B. Development standards for monopole I.

1. Antennas equal to or less than fifteen feet in height or up to four inches in diameter may be a component of a monopole I facility. Antennas which extend above the wireless communications support structure shall not be calculated as part of the height of the monopole I wireless communications support structure. For example, the maximum height for a monopole I shall be sixty feet and the maximum height of antennas which may be installed on the support structure could be sixteen feet, making the maximum permitted height of the support structure and antennas seventy-six feet (sixty feet plus sixteen feet).
2. Collocation on an existing support structure shall be permitted.
3. The shelter or cabinet used to house radio electronics equipment and the associated cabling connecting the equipment shelter or cabinet to the monopole I facilities shall be concealed, camouflaged or placed underground.
4. Monopole I facilities shall be subject to design review per Chapter 14.95.
5. Monopole I facilities shall be landscaped in conformance with the requirements of this Chapter and Chapter 16.14.
6. Monopole I facilities zone shall be set back a distance equal to four times the height of the wireless communication support structure from all public schools.
7. A distance equal or greater than one thousand three hundred twenty feet shall separate monopole I from each other and from monopole II and lattice tower facilities.
8. A fence, sufficient to prevent entry to the facility by unauthorized persons shall be provided.
9. An applicant for a permit must demonstrate that the height requested is the minimum necessary to provide the proposed service in the area served.

#### C. Development standards for monopole II and lattice towers.

1. Monopole II and lattice tower facilities are only permitted in the C-2, DC, DM, MC, and PF zone with a conditional use permit pursuant to the conditions and provisions of Chapter 18.52.020.

2. Monopole II and lattice tower facilities are only permitted if the wireless communications support structure is designed to accommodate two or more wireless communications facilities.
3. Macro facilities are the largest permitted wireless communication facilities allowed on a monopole II or lattice tower. Antennas which extend above the lattice tower wireless communications support structure shall not be calculated as part of the height of the wireless communications support structure. For example, the maximum height (with conditional use permit) for a monopole II or lattice tower shall be one hundred fifty feet and the maximum height of antennas which may be installed on the support structure could be sixteen feet, making the maximum permitted height of the support structure and antennas one hundred sixty-six feet (one hundred fifty feet plus sixteen feet).
4. The shelter or cabinet used to house radio electronics equipment and the associated cabling connecting the equipment shelter or cabinet to the monopole II or lattice tower support structure shall be concealed, screened, camouflaged or placed underground. Lattice tower facilities shall be subject to design review per Chapter 14.95.
5. Monopole II and lattice towers shall be landscaped in conformance with Chapter 16.14 of this code.
6. Monopole II and lattice towers adjacent to a residential zoning district shall be set back a distance equal to or greater than four times the height of the wireless communication support structure from the nearest residential lot line. In any case, if the monopole II or lattice tower is within three hundred feet of a single-family lot, a conditional use permit will be required pursuant to the conditions and provisions of Chapter 18.52.020 of this code.
7. Monopole II and lattice towers shall be set back a distance equal to four times the height of the wireless communication support structure from all public schools.
8. A distance equal or greater than one thousand three hundred twenty feet shall separate monopole II and lattice towers from each other and from monopole I facilities.
9. A fence, sufficient to prevent entry to the facility by unauthorized persons shall be provided.
10. An applicant for a permit must demonstrate that the height requested is the minimum necessary to provide the proposed service in the area served.

**Section 7.** BLMC Section 18.50.012 “Design criteria” of the Bonney Lake Municipal Code and Ordinance No 1034 § 1 is hereby amended to read as follows:

**18.50.012 Design criteria.**

A. As provided above, new facilities shall be designed to accommodate co-location, unless the applicant demonstrates why such design is not feasible for economic, technical, or physical reasons.

B. Facilities shall be architecturally compatible with the surrounding buildings and land uses in the zoning district and screened or otherwise integrated, through location and design, to blend in with the existing characteristics of the site.

1. **Setback.** A tower's setback shall be measured from the base of the tower to the property line of the parcel on which it is located. In residential districts and residential land use areas, where permitted, towers shall be set back from all property lines a distance equal to 100 percent of tower height as measured from ground level, except for unusual geographic limitations or other public policy considerations, as determined in the city's sole discretion. All other towers shall comply with the minimum setback requirements of the area in which they are located in all other zoning districts, unless there are unusual geographical limitations or other public policy considerations as determined in the sole and absolute discretion of the city. Such considerations shall include by way of illustration and not limitation, but are not limited to:

- a. Impact on adjacent properties;
- b. Alternative sites for personal wireless facilities; and
- c. The extent to which screening and camouflaging will mitigate the effects of the personal wireless facilities.

2. **Right-of-Way Setback Exception.** The setback requirement may be waived if the antenna and antenna support structure are located in the city right-of-way.

3. **View Corridors.** Due consideration shall be given so that placement of towers, antenna, and personal wireless service facilities do not obstruct or significantly diminish views of Mt. Rainier or the Olympic Mountains. (See figure titled "City Center and View Corridor" in Appendix, Page 29 of Ordinance 746.)\*

4. **Color.** Towers shall have a color generally matching the surroundings or background that minimizes their visibility, unless a different color is required by the FCC or FAA.

5. **Lights, Signals and Signs.** No signals, lights, or signs shall be permitted on towers unless required by the FCC or the FAA. Lighting utilized for emergency needs shall be limited for on-site projection. No off-site direct lighting shall be allowed.

6. **Equipment Structures.** Ground level equipment, buildings, and the tower base shall be screened from public view. The standards for the equipment buildings are as follows:

- a. The maximum floor area is 300 square feet and the maximum height is 12 feet. Except in unusual circumstances or for other public policy considerations the

equipment building may be located no more than 250 feet from the tower or antenna. Depending upon the aesthetics and other issues, the city, in its sole discretion, may approve multiple equipment structures or one or more larger structures.

b. Ground level buildings shall be screened from view by landscape plantings, fencing, or other appropriate means, as specified herein or in other city ordinances.

c. Equipment buildings mounted on a roof shall have a finish similar to the exterior building walls. Equipment for a roof-mounted antenna may also be located within the building on which the antenna is mounted.

d. In instances where equipment buildings are located in residential zones, equipment buildings shall comply with setback requirements and shall be designed so as to conform in appearance with nearby residential structures.

Equipment buildings, antennas, and related equipment shall occupy no more than 25 percent of the total roof area of the building the facility is mounted on, which may vary in the city's sole discretion if co-location and an adequate screening structure is used.

The use must be approved on a site plan or final development plan, as applicable.

e. In instances where equipment structures are located in residential zones or adjacent to existing residential land uses, and if the equipment structure houses motorized or electronic equipment, airborne sound transmission control in the form of acoustical insulation may be required to abate sound transmission for all exterior walls and roof-ceiling assemblies.

7. Federal Requirements. All towers must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the federal government with the authority to regulate towers and antennas. If those standards and regulations are changed, then personal wireless service providers governed by this chapter shall bring their towers and antennas into compliance with the revised standards and regulations within three months of their effective date or the timelines provided by the revised standards and regulations, whichever time period is longer. The revised standards and regulations are not retroactively applicable to existing providers, unless otherwise provided or permitted by federal law. Failure to bring towers and antennas into compliance with the revised standards and regulations shall constitute grounds for the city to remove a provider's facilities at the provider's expense.

8. Building Codes – Safety Standards. To ensure the structural integrity of towers, the owner of a tower shall ensure that it is maintained in compliance with standards contained in applicable city building codes and the applicable standards for towers that are published by the Electronic Industries Association (EIA), as amended from time to time. If, upon inspection, the city concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being

provided to the owner of the tower, the owner shall have 30 days to bring the tower into compliance with such standards. If the owner fails to bring its tower into compliance within 30 days, the city may remove the tower at the owner's expense.

9. Structural Design. Towers shall be constructed to the EIA standards, which may be amended from time to time, and to all applicable construction/building codes. Further, any improvements or additions to existing towers shall require submission of plans stamped by a professional engineer which demonstrate compliance with the EIA standards and all other good industry practices. The plans shall be submitted and reviewed at the time building permits are requested.

10. Fencing. A well-constructed wall or wooden fence not less than six feet in height from the finished grade shall be provided around each personal wireless service facility. Access to the tower shall be through a locked gate. The use of chain link, plastic, vinyl, or wire fencing is prohibited unless it is fully screened from public view by a minimum eight-foot-wide landscaping strip. All landscaping shall meet the standards of Chapter 16.12 BLMC, Land Clearing and Landscaping.

~~11. Tower and Antenna Height. The applicant shall demonstrate that the tower and antenna are the minimum height required to function satisfactorily. No tower or antenna that is taller than this minimum height shall be approved. No tower or mount shall exceed 50 feet in R-3 multiple-family residences and C-1 neighborhood combined zones and a maximum of 110 feet in the PF, C-2, C-3, C-2/C-3 combined and M-1 manufacturing zone unless they are approved as a camouflaged facility. See Figure 2, Wireless Communication Facilities Height Limits for Freestanding Antenna Facilities.\*~~

12. Antenna Support Structure Safety. The applicant shall demonstrate that the proposed antenna and support structure are safe and the surrounding areas will not be negatively affected by support structure failure, falling ice, or other debris or interference. All support structures shall be fitted with anti-climbing devices, as approved by the manufacturers.

13. Required Parking. If the cell site is fully automated, adequate parking shall be required for maintenance workers. If the site is not automated, arrangements for adequate off-street parking shall be made and documentation thereof provided to the city. Security fencing should be colored or should be of a design which blends into the character of the existing environment.

14. Tower Separation. Cell towers shall not be located closer than one-half mile from another tower whether it is owned or utilized by the applicant or another provider. Multi-use communication towers such as the tower at the public safety building are to be considered as towers. Camouflaged towers such as flagpoles over 30 feet in height shall also be considered towers. The city council may designate areas where multiple towers can be located in closer proximity.

15. Antenna Criteria. Antenna on or above a structure shall be subject to the following:

a. The antenna shall be architecturally compatible with the building and wall on which it is mounted, and shall be designed and located so as to minimize any adverse aesthetic impact.

b. The antenna shall be mounted on a wall of an existing building in a configuration as flush to the wall as technically possible and shall not project above the wall on which it is mounted unless it must be for technical reasons. In no event shall an antenna project more than 16 feet above the roof line including parapets.

c. The antenna shall be constructed, painted, or fully screened to match as closely as possible the color and texture of the building and wall on which it is mounted.

d. The antenna may be attached to an existing conforming mechanical equipment enclosure which projects above the roof of the building, but may not project any higher than the enclosure.

e. If an accessory equipment shelter is present, it must blend with the surrounding buildings in architectural character and color.

f. The structure must be architecturally and visually (color, size, bulk) compatible with surrounding existing buildings, structures, vegetation, and uses. Such facilities will be considered architecturally and visually compatible if they are camouflaged to disguise the facility.

g. Site location and development shall preserve the pre-existing character of the site as much as possible. Existing vegetation should be preserved or improved, and disturbance of the existing topography of the site should be minimized, unless such disturbance would result in less visual impact of the site on the surrounding area. The effectiveness of visual mitigation techniques must be evaluated by the city, in the city's sole discretion.

~~h. For installations on buildings greater than 30 feet in height, see other applicable provisions of this chapter. In addition to the other requirements of this chapter, on buildings 30 feet or less in height, the antenna may be mounted on the roof if the following additional criteria are satisfied (refer to Figure 2, page 28 in Appendix, Ordinance 746, for height limitations)\*:~~

~~i. The city finds that it is not technically possible or aesthetically desirable to mount the antenna on a wall.~~

~~ii. No portion of the antenna or base station causes the height of the building to exceed the limitations set forth herein.~~

~~iii. The antenna or antennas and related base stations cover no more than an aggregate total of 25 percent of the roof area of a building, which may vary in the city's sole discretion, if co-locating and an adequate screening structure are used.~~

~~iv. Roof-mounted antenna and related base stations are completely screened from view by materials that are consistent and compatible with the design, color, and materials of the building.~~

~~v. No portion of the antenna may exceed 16 feet above the roof line of the existing building.~~

~~i. If a proposed antenna is located on a building or a lot subject to a site review, approval is required prior to the issuance of a building permit.~~

j. No personal wireless service provider or lessee or agent thereof shall fail to cooperate in good faith to accommodate co-location with competitors. If a dispute arises about the feasibility of co-locating, the city administrator may require a third party technical study, at the expense of either or both parties, to resolve the dispute.

k. No personal wireless service provider or lessee shall fail to assure that its antenna complies at all times with the current applicable FCC standards. After installation, but prior to putting the antenna in service, each provider shall submit a certification by an independent professional engineer to that effect. In the event that an antenna is co-located with another antenna, the certification must provide assurances that FCC approved levels of electromagnetic radiation will not be exceeded by the co-location.

l. No antenna shall cause localized interference with the reception of any other communications signals including, but not limited to, public safety, television, and radio broadcast signals.

m. No person shall locate an antenna or tower for wireless communications services upon any lot or parcel except as provided in this chapter.

n. Antennas, to include parabolic antennas, shall be located on existing buildings, poles or other existing support structures. An antenna may be located on buildings and structures; provided, that the interior wall or ceiling immediately adjacent to the facility is not designated residential space.

o. Antennas shall comply with the height limitation specified for all zones, except as follows: omni-directional antennas may exceed the height limitation by sixteen feet, or in the case of nonconforming structures the antennas may extend sixteen feet above the existing structure. Panel antennas may exceed the height limitation if affixed to the side of an existing building and if they blend in architecturally with the building. Placement of an antenna on a nonconforming structure shall not be considered to be an expansion of the nonconforming structure.

p. Structures which are nonconforming with respect to height, may be used for the placement of omni-directional antennas; provided the antenna does not extend more than six feet above the existing structure. Placement of an antenna on a nonconforming structure shall not be considered to be an expansion of the nonconforming structure.

q. The antenna must be either:

1. An omni-directional or whip antenna no more than seven inches in diameter and extending no more than 16 feet above the structure to which they are attached; or

2. A panel antenna no more than two feet wide and six feet long, extending above the structure to which they are attached by no more than 16 feet.

t. Camouflaged antennas mounted as part of an existing structure do not require an administrative WCF permit but may be permitted following an administrative review with this chapter and other city regulations.

u. Antenna, antenna arrays, and support structures not on publicly owned property shall not extend more than 16 feet above the highest point of the structure on which they are mounted. The antenna, antenna array, and their support structure shall be mounted so as to blend with the structure to which the antenna is attached. The antenna and its support structure shall be designed to withstand a wind force of 100 miles per hour without the use of supporting guy wires. The antenna, antenna array, and their support structure shall be a color that blends with the structure on which they are mounted.

v. Setback from Street. Unless there are unusual geographic limitations or other public policy considerations, as determined in the city's sole discretion, no such antenna, antenna array, or its support structure shall be erected or maintained closer to any street than the minimum setback for the zone in which it is located unless otherwise waived or exempt.

w. Guy Wires Restricted. No guy or other support wires shall be used in connection with such antenna, antenna array, or its support structure except when used to anchor the antenna, antenna array, or support structure to an existing building to which such antenna, antenna array, or support structure is attached.

x. To the extent that antennas are attached to electric, telephone or similar existing streetlight poles and such antennas are no more than two feet in height beyond the height of their supporting pole, administrative WCF and building permit review will be required, but such antennas shall not be subject to setbacks and screening requirements.

**Section 8.** BLMC Section 18.50.013, "Permits Required" of the Bonney Lake Municipal Code and Ordinance No 952 § 4 is hereby renamed "Other Permits Required" and amended to read as follows:

**18.50.013 Other Permits required.**

Where a tower or antenna support structure will be 60 feet or less in height, in addition to the other provisions of this chapter, an applicant will be required to obtain an administrative WCF permit. In the event that a proposed tower or antenna support structure will be more than 60 feet in height, in addition to the other provisions of this chapter, an applicant will be required to obtain a conditional use permit unless a camouflaged wireless communications facility is approved less than 110 feet in height. No CUP will be required of camouflaged structures less than 110 feet in height. Facilities taller than 100 feet shall be required to obtain a CUP. With respect to the placement of an antenna on a tower or antenna support structure, the requirements for a conditional use permit or an administrative WCF permit will be applicable based on the height of the tower and antenna or mount and antenna unless this chapter provides other requirements to the contrary.

The following table specifies the additional permits required for the various types of personal wireless service facilities that meet the standards of this chapter:

<u>TYPE OF ADDITIONAL PERMIT FOR WIRELESS TOWERS REQUIREMENTS</u>				
Type of Facility	Building	CUP	Right-of-Way Use	Administrative WCF
Monopole I, Monopole II, and Lattice Towers less than 60 feet in height	X BLMC 18.50.008	X <sup>+</sup> (if over 35 feet in residential zone) BLMC 18.50.007(B)(2)	X (if applicable)	X BLMC 18.50.013
Structure mounted wireless facilities	X BLMC 18.50.008	X (unless waived) BLMC 18.50.009(A)(2)	X (if applicable)	X (unless waived) BLMC 18.50.013(B)
Building mounted wireless facilities	X (if applicable)	X	X	X

	BLMC 18.50.008	(unless waived) BLMC 18.50.009(A)(2)	(if applicable)	(unless waived) BLMC 18.50.013(B)
Noncamouflaged towers more than 60 feet in height	X  (if applicable) BLMC 18.50.008	X  BLMC 18.50.013 18.50.007(B)(2)	X  (if applicable)	-
Camouflaged towers 60 feet to 100 feet in height	X  BLMC 18.50.008	-	X  (if applicable)	X
Camouflaged towers more than 110 feet in height	X  BLMC 18.50.008	X  BLMC 18.50.013 18.50.007(B)(2)	X  (if applicable)	-

<sup>1</sup> See BLMC 18.50.007 for requirements in residential zones.

See Height Limits Per Freestanding Antenna Facilities by Zone, Figure 2, Appendix, Ordinance 746, Page 28.\*

\*Referenced figures and tables are available in the office of the city clerk.

To meet the standards of this chapter, a personal wireless service facility must also comply with the other requirements under this chapter and with the following:

For antenna attached to the roof or sides of a building at least 30 feet in height, an existing tower, a water tank, or a similar structure:

A. The antenna must be either:

1. An omni-directional or whip antenna no more than seven inches in diameter and extending no more than 16 feet above the structure to which they are attached; or

~~2. A panel antenna no more than two feet wide and six feet long, extending above the structure to which they are attached by no more than 10 16 feet.~~

~~B. Camouflaged antennas mounted as part of an existing structure do not require an administrative WCF permit but may be permitted following an administrative review with this chapter and other city regulations.~~

~~C. Antenna, antenna arrays, and support structures not on publicly owned property shall not extend more than 16 feet above the highest point of the structure on which they are mounted. The antenna, antenna array, and their support structure shall be mounted so as to blend with the structure to which the antenna is attached. The antenna and its support structure shall be designed to withstand a wind force of 100 miles per hour without the use of supporting guy wires. The antenna, antenna array, and their support structure shall be a color that blends with the structure on which they are mounted.~~

~~D. Setback from Street. Unless there are unusual geographic limitations or other public policy considerations, as determined in the city's sole discretion, no such antenna, antenna array, or its support structure shall be erected or maintained closer to any street than the minimum setback for the zone in which it is located unless otherwise waived or exempt.~~

~~Exemption: C-2 commercial shall be a 25-foot setback from right of way for wireless communications facility installation unless an existing structure is utilized.~~

~~E. Guy Wires Restricted. No guy or other support wires shall be used in connection with such antenna, antenna array, or its support structure except when used to anchor the antenna, antenna array, or support structure to an existing building to which such antenna, antenna array, or support structure is attached.~~

~~F. To the extent that antennas are attached to electric, telephone or similar existing streetlight poles and such antennas are no more than two feet in height beyond the height of their supporting pole, administrative WCF and building permit review will be required, but such antennas shall not be subject to setbacks and screening requirements.~~

**Section 9.** BLMC Section 18.52.020, "Conditional Use Permits" of the Bonney Lake Municipal Code and Ordinance No 1520 § 4 is hereby amended to read as follows:

- A. A conditional use permit is required for certain uses in certain zones because of those uses' unusual size, infrequent occurrence, special requirements, possible safety hazards or detrimental effects on surrounding properties, or similar reasons.
- B. Conditional use permits shall be Type 3 permits.
- C. In determining whether a conditional use permit should be granted, the hearing examiner shall consider the following factors:
  1. Whether the proposed use is injurious to the public welfare and convenience;

2. The impact of the proposed use on the subject property and/or other properties in the surrounding area;
  3. The character of the area in which the use is proposed;
  4. The intent of the zoning code and comprehensive plan of the City; and
  5. The availability of municipal services such as water, sewer, roads, fire and police protection which might be required by reason of the proposed use.
- D. In addition to the requirements of 18.52.020.A through 18.52.02.C conditional use permits for essential public facilities (EPF) shall be subject to the requirements of this section.
1. In addition to the application materials required for any permit required to construct or modify the EPF, the applicant shall submit the following material:
    - a. Information demonstrating compliance with any existing multi-jurisdictional siting criteria in selecting the proposed location for the EPF; and
    - b. Information regarding all alternative sites considered for the proposed EPF, including information about why such alternative sites were not selected.
  2. In addition to the decision criteria applicable to any permit required to construct or modify the EPF, the City may approve, or approve with modifications, a proposal to construct or modify an EPF if:
    - a. The location and design are consistent with any planning document under which the proposing agency, special district or organization operates, as determined by the person or body having authority to interpret such document;
    - b. The location, design, use and operation of the EPF complies with any applicable guidelines, rules, regulations or statutes adopted by state law, or any agency or jurisdiction with authority;  
  
A building which houses all or a majority of an EPF must be compatible with the architectural form of surrounding buildings. This requirement is not applicable to an EPF where significant elements of the facility are not housed in a building or to isolated minor elements such as utility meters;
    - c. An EPF may be permitted in in the R-1, R-2, R-3, RC-5, DM or DC zoning classification, only if there is an operational or other need that requires locating in that district to achieve the purpose or function of the EPF;
    - d. If the City determines that the EPF is potentially dangerous to human life, appropriate protective measures may be required.

3. The Hearing Examiner may impose conditions on the location, design, use or operation of the EPF within the scope of the City’s authority in order to mitigate identified environmental, public safety or other impacts of the EPF.
- E. Additional conditional use permit criteria. In addition to the conditional use permit criteria specified in the sections above, the following specific criteria shall be met before a conditional use permit can be granted for Monopole I, Monopole II and lattice towers:
1. Visual impact.
    - a. Antennas may not extend more than 16 feet above their supporting structure, monopole lattice tower, building or other structure.
    - b. Site location and development shall preserve the pre-existing character of the surrounding buildings and land uses and the zone district to the extent consistent with the function of the communications equipment. Wireless communication towers shall be integrated through location and design to blend in with the existing characteristics of the site to the extent practical. Existing on-site vegetation shall be preserved or improved, and disturbance of the existing topography shall be minimized, unless such disturbance would result in less visual impact of the site to the surrounding area.
    - c. Accessory equipment facilities used to house wireless communications equipment should be located within buildings. When they cannot be located in buildings, equipment shelters or cabinets, they shall be screened and landscaped.
  2. Noise. As a condition the service provider of the WCF will need to provide information regarding the dB reading associated with the structure as measured from the nearest property line.
  3. Other application and conditional use criteria—FCC preemption. In any proceeding regarding the issuance of a conditional use permit under the terms of this chapter, federal law prohibits consideration of environment effects of radio frequency emissions to the extent that the proposed facilities comply with the Federal Communications Commission regulations concerning such emission.

**Section 10.** BLMC Section 14.40.080, “Decision” of the Bonney Lake Municipal Code and Ordinance No. 1505 § 4 is hereby amended to read as follows:

**BLMC 14.40.080 Decision.**

- A. The decision maker shall determine if the application is consistent with the development code and the policies of the comprehensive plan and notify the applicant within 120 days of the determination of completeness, except as provided in section B below, as calculated pursuant to BLMC 14.10.070 subject to the following:

1. ~~A.~~ The decision maker may include in a decision any conditions of approval that are necessary to ensure that the proposal complies with all applicable development code and comprehensive plan policies.
2. ~~B.~~ If the proposal is not exempt from design review, the decision maker shall not issue a final decision until the design commission has reviewed the applications and made recommendations to the director; unless the design commission delegates its design review on a specific application to the director pursuant to BLMC 14.95.030.
3. ~~C.~~ No building permit shall be issued until all related, necessary permits are final, including appeals to the hearing examiner, unless the director(s) waives this prohibition based on the applicant signing a statement acknowledging the appeal period and agreeing to remove or modify the permitted work at the applicant's expense should an appeal result in revocation or modification of the appealed permit.
4. ~~D.~~ Short plats shall not be recorded until after the appeal period has lapsed. (Ord. 1505 § 4, 2015).

#### B. Eligible Wireless Communication Facility Modifications

The City will act on the application, together with any other City permits required for a proposed modification, within 90 days; provided that:

(i) If the City determines that the application does not qualify as an Eligible Facilities Request, the City will notify the applicant of that determination in writing and will process the application as a WCF Permit application, as applicable.

(ii) To the extent federal law provides a "deemed granted" remedy applications not timely acted upon by the City, no such application shall be deemed granted until the Applicant provides notice to the City, in writing, that the application has been deemed granted after the time period provided in Section (a) above has expired.

**Section 11.** Section 18.04.010, "A" of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. Ord. 988 § 2 is hereby amended to read as follows:

#### **18.04.010 "A".**

"Abandonment" means to:

- A. Cease operation for a period of 60 or more consecutive days;
- B. Reduce the effective radiated power of an antenna by 75 percent for 60 or more consecutive days;

C. Relocate an antenna at a point less than 80 percent of the height of an antenna support structure; or

D. Reduce the number of transmissions from an antenna by 75 percent for 60 or more consecutive days.

“Accessory building” is a building secondary to the primary building on the premises upon the lot and not attached thereto.

“Accessory dwelling unit” is a second dwelling unit either in or added to an existing single-family detached dwelling, or in a separate structure on the same lot as the primary dwelling for use as a complete, independent living facility with provision within the accessory unit for cooking, eating, sanitation, sleeping and entry separate from that of the main dwelling. Such a dwelling is an accessory use to the main dwelling. Accessory units are also commonly known as “mother-in-law” units or “carriage houses.”

“Adult arcade” means a commercial establishment containing individual viewing areas or booths, where, for any form of consideration, including a membership fee, one or more still or motion picture projectors, slide projectors, or other similar image-producing machines are used to show films, motion pictures, video cassettes, slides, or other visual representations that are distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas.

“Adult cabaret” means a nightclub, bar, restaurant, tavern, or other similar commercial establishment, whether or not alcoholic beverages are served, that regularly features adult entertainment.

“Adult entertainment” means:

A. Any exhibition, performance or dance conducted in an adult entertainment facility where such exhibition, performance or dance is distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas; or

B. Any exhibition, performance or dance intended to sexually stimulate any patron and conducted in an adult entertainment facility where such exhibition, performance or dance is performed for, arranged with, or engaged in with fewer than all patrons in the adult entertainment facility at that time, with separate consideration paid, either directly or indirectly, for such performance, exhibition or dance. For purposes of example and not limitation, such exhibitions, performances or dances are commonly referred to as table dancing, couch dancing, taxi dancing, lap dancing, private dancing or straddle dancing.

“Adult entertainment facility” means a commercial establishment defined as an adult arcade, adult cabaret, adult motel, adult motion picture theater, adult retail store, or other adult entertainment facility.

“Adult entertainment facility, other” means any commercial establishment not defined herein where adult entertainment is regularly conducted or where sexually oriented materials are regularly displayed, or available in any form, for on-site consumption or use for any type of consideration; provided, however, that a public library, and a school, university, or similar educational or scientific/ medical facility shall not be considered an adult entertainment facility. In addition, a commercial establishment that offers access to telecommunications networks as a principal business purpose shall not be considered an adult entertainment facility unless the access is provided for the primary purpose of displaying or presenting visual images that are distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas.

“Adult family home” is a regular family abode of a person or persons providing personal care, special care, room, and board to more than one but not more than six adults who are not related by blood or marriage to the person or persons providing the services, which is licensed pursuant to Chapter 70.128 RCW.

“Adult motel” means a hotel, motel, or similar commercial establishment which:

- A. Offers sleeping accommodations to the public for any form of consideration and provides patrons with closed-circuit television transmissions, films, motion pictures, video cassettes, slides, or other visual representations that are distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas, and that has a sign visible from the public right-of-way that advertises the availability of this type of sexually oriented materials; or
- B. Offers a sleeping room for rent for a rental fee period of time that is less than 10 hours; or
- C. Allows a tenant or occupant of a sleeping room to sub-rent the room for a period of time that is less than 12 hours.

“Adult motion picture theater” means a commercial establishment where, for any form of consideration, motion pictures, films, video cassettes, slides, or other similar visual representations are regularly shown that are distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas.

“Adult retail store” means a commercial establishment such as a bookstore, video store, or novelty shop which as one of its principal business purposes offers for sale or rent, for any form of consideration, any one or more of the following:

- A. Books, magazines, periodicals or other printed materials, or photographs, films, motion pictures, video cassettes, slides, or other visual representations that are distinguished or characterized by a predominant emphasis on matters depicting, describing, or simulating any specified sexual activities or any specified anatomical areas; or

B. Instruments, devices, or paraphernalia designed for use in connection with any specified sexual activities.

“Accessory antenna device” means an antenna including, but not limited to, test mobile antennas and global positioning system (GPS) antennas which are less than twelve inches in height or width, excluding the support structure.

“Antenna” means any existing poles, panels, rods, reflecting discs or similar devices used for the transmission or reception of radio or electromagnetic frequency signals, including:

A. “Directional antenna” (also known as “panel” antenna) means an antenna which transmits and receives radio frequency signals in a specific directional pattern of less than 360 degrees.

B. “Omni-directional antenna” (also known as a “whip” antenna) means an antenna which transmits and receives radio frequency signals in a 360-degree radial pattern. Does not include antenna utilized specifically for television reception.

C. “Parabolic antenna” (also known as a “dish” antenna) means an antenna which is a bowl-shaped device for the reception and/or transmission of radio frequency communication signals in a specific directional pattern.

D. “Stealth antenna” means an antenna installed inside a non-antenna structure, or camouflaged to appear as a non-antenna structure.

“Antenna height” means the vertical distance measured from the base of the antenna support structure at grade to the highest point of the structure even if said highest point is an antenna. Measurement of tower height shall include antenna, base pad, and other appurtenances and shall be measured from the finished grade of the parcel. If the support structure is on a sloped grade, then the average between the highest and lowest grades shall be used in calculating the antenna height.

“Antenna support structure” means any pole, telescoping mast, tower, tripod, or other structure which supports a device used in the transmitting or receiving of radio frequency signals.

“Applicant” means any provider or any person, partnership, or company who files an application for any permit necessary to install, maintain, relocate or remove a personal wireless service facility within the city.

“Arcade” is a place of business devoted primarily to the use of pinball and electronic games by patrons.

“Attached wireless communication facility” means a wireless communication facility that is affixed to an existing structure and is not considered simply a component of an attached wireless communications facility.

“Automobile and trailer sales area” means an open, off-street area used for the display, sale or rental of new or used automobiles or trailers and where no repair work is done.

“Automobile service station” means a building or portion thereof and land used for dispensing automobile fuel, oil and accessories, and services in connection therewith. (Ord. 988 § 2, 2003; Ord. 747 § 1, 1997; Ord. 746 § 19, 1997; Ord. 740 § 2, 1997).

“Authorized person” means the person, employees, agents, consultants, and contractors, authorized in writing by applicant to complete and submit an eligible facilities modification application on behalf of applicant and who is authorized to receive any notices on behalf of applicant of any action taken by the City regarding the application.

**Section 12.** Section 18.04.020, “B” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1364 § 3 is hereby amended to read as follows:

**18.04.020 “B”.**

“Bar” means a portion of a full food menu restaurant premises wherein alcoholic beverages are sold at retail for consumption on the premises and minors are excluded therefrom by law.

“Base station” means and refer to the structure or equipment at a fixed location that enables wireless communications licensed or authorized by the FCC, between user equipment and a communications network. The term does not encompass a tower as defined in this chapter or any equipment associated with a tower.

A. The term includes, but is not limited to, equipment associated with wireless communications services such as private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.

B. The term includes, but is not limited to, radio transceivers, antennas, coaxial or fiber-optic cable, regular and backup power supplies, and comparable equipment, regardless of technological configuration (including Distributed Antenna Systems and small-cell networks).

C. The term includes any structure other than a tower that, at the time an eligible facilities modification application is filed with the City under this Chapter, supports or houses equipment described in paragraphs (i) - (ii) above, and that has been reviewed and approved under the applicable zoning or siting process, or under another State, county or local regulatory review process, even if the structure was not built for the sole or primary purpose of providing such support.

D. The term does not include any structure that, at the time a completed eligible facilities modification application is filed with the City under this section, does not support or house equipment described in paragraphs (i) - (ii) above.

“Beer and wine specialty shop” is a shop that sells beer, strong beer and/or wine for off-premises consumption in bottles, cans, or original containers. May offer samples for purposes of sales promotion.

“Boarding home” is any home or other institution, however named, which is advertised, announced or maintained for the express or implied purpose of providing board and domiciliary care to three or more aged persons not related by blood or marriage to the operator. It shall not include adult family homes or independent senior housing.

“Brewpub” means a restaurant-brewery that has a full food menu and sells at least 50 percent of its beer on the premises. The beer is brewed for sale and consumption in the adjacent restaurant and/or bar. The beer is often dispensed directly from the brewery’s storage tanks.

“Building” means a structure with a foundation, supports or walls and a roof.

“Building height” of a structure with a flat roof shall be measured from the grade plane to the highest roof surface. The “building height” for a sloped roof shall be defined as the average height of the highest roof between the roof eave and the roof ridge to the grade plane, regardless of the shape of the roof. For lots within 200 feet of the shoreline, “building height” shall be determined by using WAC 173-27-030(9).

“Bulk regulation” refers to the relationship of the area of a lot, the setback regulations and the portion of a lot which may be covered by building. (Ord. 1364 § 3, 2010; Ord. 1302 § 1, 2009; Ord. 740 § 2, 1997).

**Section 13.** Section 18.04.030, “C” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1502 § 1 is hereby amended to read as follows:

**18.04.030 “C”.**

“Camouflaged” means a personal wireless service facility that is disguised, hidden, or integrated with an existing structure that is not a monopole or tower, or a personal wireless service facility that is placed within an existing or proposed structure or new structure, tower, or mount within trees so as to be significantly screened from view or camouflaged to appear as a non-antenna structure (i.e., tree, flagpole with flag, etc.).

“Cell site” or “site” means a tract or parcel of land that contains personal wireless service facilities including any antenna, support structure, accessory buildings, and parking, and may include other uses associated with and ancillary to personal wireless services.

“City” means and refers to the City of Bonney Lake.

“City center and view corridor area” means an area defined by the boundaries of the city center and the view corridor for Mt. Rainier along SR 410 from approximately 500 feet northwest of the intersection with Sumner/Buckley Highway (Bonney Lake Main Street to the dip in SR 410 just west of Angeline Road undercrossing (the point where Mt. Rainier disappears from view)).

“Co-location” means the use of a personal wireless service facility or cell site by more than one personal wireless service provider.

“Conceal” or “Concealment” means and refer to eligible support structures and transmission facilities designed to look like some feature other than a wireless tower or base station.

“Conditional use” means a use permitted in one or more classifications as defined by this title but which use because of characteristics peculiar to it, or because of size, technological processes, or type of equipment, or because of the exact location with reference to surroundings, streets and existing improvements or demand upon public facilities, requires a special degree of control to make such uses consistent with and compatible to other existing or permissible uses in the same zones or zones, and to assure that such use shall not be harmful to the public interest.

“Conditional use permit” or “CUP” means the documented evidence of authority granted by the hearing examiner to locate a conditional use at a particular location.

“Condominium” means a multiple-family dwelling and its accessory uses and grounds in which each dwelling unit is individually owned, and all or any part of the dwelling structure, accessory uses and grounds are owned cooperatively by the owners of said dwelling units, and maintenance functions are performed by required subscriptions from said owners.

Convalescent Home. See “Nursing home.”

“COW” means “cell on wheels.” (Ord. 1502 § 1, 2015; Ord. 1442 § 2, 2012; Ord. 746 § 19, 1997; Ord. 740 § 2, 1997).

**Section 14.** Section 18.04.040, “D” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. Ord. 746 § 19 is hereby amended to read as follows:

**18.04.040 “D”.**

“Day care center” means:

A. Person(s) who regularly provides care for 13 or more children for periods of less than 24 hours.

B. In addition to the regulations set forth in this chapter, day care centers/family day care homes shall be state-licensed and conform to all federal and state regulations applicable.

“Design” means the appearance of personal wireless service facilities, including such wireless communications facility features as their materials, colors, and shapes.

“Design centerline” shall be the center of the street right-of-way. However, if land for streets has been dedicated unevenly, the design centerline shall be the line on which both properties met before any dedication occurred.

“Directional antenna” (also known as a panel antenna) means an antenna that transmits and receives radio frequency signals in a specific directional pattern of less than three hundred sixty degrees.

“Dwelling unit” means one or more rooms designed or occupied by one family for living or sleeping purposes, and containing kitchen and bath facilities for use solely by one family. A bachelor apartment constitutes a dwelling unit within the meaning of this zoning code.

**Section 15.** Section 18.04.060, “F” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 746 § 19, is hereby amended to read as follows:

**18.04.060 “F”.**

“FAA” means the Federal Aviation Administration.

“Family” is one or more individuals sharing a common household.

“Family day care home” means:

A. A person regularly providing care during part of the 24-hour day to six or fewer children in the family abode of the person or persons under whose direction the children are placed.

B. In addition to the regulations set forth in this chapter, day care centers/family day care homes shall be state-licensed and conform to all federal and state regulations applicable.

“FCC” means the Federal Communications Commission or its successor.

“FCC Eligible Facilities Request Rules” shall mean and refer to 47 C.F.R. Part 1 (PART 1 – PRACTICE AND PROCEDURE), Subpart CC § 1.40001 as established pursuant to its Report and Order in, *In re Acceleration of Broadband Deployment by Improving Wireless Facilities Siting Policies*, WT Docket Nos. 13-238, 13-32; WC Docket No. 11-59; FCC 14-153, or as may be thereafter amended.

“Floor area” is the sum of the gross floor areas of the several floors of a building or buildings, measured from the exterior faces of exterior walls or from the centerlines or walls separating two buildings, whichever is applicable.

“Floor area ratio” is the ratio of the total floor area of a building on a lot, divided by the lot area of that lot.

**Section 16.** Section 18.04.070, “G” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1302 § 2, is hereby amended to read as follows:

**18.04.070 “G”.**

“Governing authority” means the city council of the city of Bonney Lake.

“Grade” or “grade plane” is a reference plane representing the average of finished ground level adjoining the building at exterior walls. Where the lot line is more than six feet from the building the average finished ground level shall be measured between the building and a point six feet from the building. Lots within 200 feet of the shoreline shall use WAC 173-27-030(3) to determine grade.

“Guyed tower” means a wireless communication support structure which is usually over one hundred feet tall, which consists of metal crossed strips or bars and is steadied by wire guys in a radial pattern around the tower.

**Section 17.** Section 18.04.130, “M” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1502 § 2, is hereby amended to read as follows:

**18.04.130 “M”.**

“Macro facility” is an attached wireless communication facility which consists of antennas equal to or less than fifteen feet in height or a parabolic antenna up to one meter (thirty-nine and thirty-seven-one-hundredths inches) in diameter and with an area not more than one hundred square feet in the aggregate as viewed from any one point.

“Manufactured home” means a structure constructed after June 15, 1976, in accordance with state and federal requirements for manufactured homes, which:

- A. Is comprised of at least two fully enclosed parallel sections each of not less than 12 feet wide by 36 feet long;
- B. Was originally constructed and now has a composition of wood shake or shingle, coated metal, or similar roof of not less than 3:12 pitch;
- C. Has exterior siding similar in appearance to siding materials commonly used on conventional site-built Uniform Building Code single-family residences;
- D. Is built on a permanent chassis and designed solely for the purpose of human habitation.

“Marijuana” means all parts of the plant Cannabis, whether growing or not, with a THC (tetrahydrocannabinol) concentration greater than 0.3 percent on a dry weight basis; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant, its seeds or resin. The term does not include the mature stalks of the plant, fiber produced from the stalks, oil or cake made from the seeds of the plant, any other compound, manufacture, salt, derivative, mixture, or preparation of the mature stalks (except the resin extracted therefrom), fiber, oil, or cake, or the sterilized seed of the plant which is incapable of germination.

“Marijuana collective garden” (also referred to as “medical marijuana collective garden,” “cannabis collective garden,” and “medical cannabis collective garden”) means a location where

“qualifying patients,” as defined in RCW 69.51A.010(4), may engage in the production, processing, and/or delivery of marijuana for medical use, as described in RCW 69.51A.090.

“Marijuana concentrates” means products consisting wholly or in part of the resin extracted from any part of the plant Cannabis and having a THC concentration greater than 60 percent.

“Marijuana dispensary” (also referred to as “medical marijuana dispensary,” “cannabis dispensary,” and “medical cannabis dispensary”) means any facility where marijuana or marijuana products are grown, produced, manufactured, sold or otherwise made available and/or distributed that is not licensed by the Washington State Liquor Control Board.

“Marijuana-infused products” means products that contain marijuana or marijuana extracts, are intended for human use, and have a THC concentration greater than 0.3 percent and no greater than 60 percent. The term “marijuana-infused products” does not include either usable marijuana or marijuana concentrates.

“Marijuana processor” means a person, business, or organization licensed by the Washington State Liquor Control Board to process marijuana into usable marijuana and marijuana-infused products, package and label usable marijuana, marijuana concentrates, and marijuana-infused products for sale in retail outlets, and sell usable marijuana, marijuana concentrates, and marijuana-infused products at wholesale to marijuana retailers.

“Marijuana producer” means a person, business, or organization licensed by the Washington State Liquor Control Board to produce and sell marijuana at wholesale to marijuana processors and other marijuana producers.

“Marijuana retailer” means a person, business, or organization licensed by the Washington State Liquor Control Board to sell usable marijuana, marijuana concentrates, and marijuana-infused products in a retail outlet.

“Massage therapy/spa” means a scientific or skillful manipulation of soft tissue for therapeutic or remedial purposes, specifically for improving muscle tone and circulation and promoting health and physical well-being. The term includes, but is not limited to, manual and mechanical procedures for the purpose of treating soft tissue only, the use of supplementary aids such as rubbing alcohol, liniments, oils, antiseptics, powders, herbal preparations, creams or lotions, procedures such as oil rubs, salt glows and hot or cold packs or other similar procedures or preparations commonly used in this practice. This term specifically excludes manipulation of the spine or articulations and excludes sexual contact.

“Medical-dental clinic” means an establishment for the treatment of outpatients, and providing no overnight care for patients.

“Microbrewery” means a facility that produces beer and sells it to the public by one or more of the following methods: through the traditional three-tier system (brewer to wholesaler to retailer to consumer); the two-tier system (brewer acting as wholesaler to retailer to consumer); and in some cases, directly to the consumer through carry-outs or on-site taproom sales. Microbreweries shall

have a production capacity not to exceed 15,000 U.S. barrels per year and shall have a full food menu.

“Microcell” means a wireless communication facility consisting of an antenna that is either equal to or less than four feet in height and with an area of not more than five hundred eighty square inches; or if a tubular antenna, no more than four inches in diameter and no more than six feet in length.

“Mini-day care center” means a person or agency providing care during part of the 24-hour day to 12 or fewer children in a facility other than the family abode of the person or persons under whose direct care the children are placed, or for the care of seven through 12 children in the family abode of such person or persons.

“Mini facility” is an attached wireless communication facility which consists of antennas equal to or less than ten feet in height or a parabolic antenna up to one meter (thirty-nine and thirty-seven-one-hundredths inches) in diameter and with an area not more than fifty square feet in the aggregate as viewed from any one point.

“Mobile home” means a single-family prefabricated residential unit manufactured according to the standards of the statutes of the state and federal government, capable of being moved upon the public roads and highways, so designed and equipped as to be served by a sanitary sewer or septic tank system, supported by leveling jacks or blocks.

“Mobile home park” is a tract of land used or designated for the use of two or more mobile homes.

“Modification” means the changing of any portion of a facility such as a personal wireless service facility from its description in a previously approved permit. Examples include, but are not limited to, changes in design.

“Modular home” means any structure other than a mobile or manufactured home designed primarily for human occupancy, which is either entirely or substantially prefabricated or assembled at a place other than a building site and which has been approved pursuant to RCW 43.22.455 and bears the insignia of the Washington State Department of Labor and Industries.

Monopole I” is a wireless communication facility which consists of a support structure, the height of which shall not exceed sixty feet.

“Monopole II” is a wireless communication facility, which consists of a wireless communications support structure, greater than sixty feet in height erected to support wireless communication antennas and connecting appurtenances.

“Mount” means the structure or surface upon which personal wireless service facilities are mounted. There are three types of mounts:

A. Building Mounted. A personal wireless service facility mount fixed to the roof or side of a building.

B. Ground Mounted. A personal wireless service facility mount fixed to the ground, such as a tower.

C. Structure Mounted. A personal wireless service facility fixed to a structure other than a building, such as light standards, electrical transmission towers, utility poles, and bridges.

**Section 18.** Section 18.04.180, “R” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1364 § 3, is hereby amended to read as follows:

**18.04.180 “R”.**

“Related equipment” is all equipment ancillary to the transmission and reception of voice and data via radio frequencies. Such equipment may include, but is not limited to, cable, conduit and connectors.

“Residence” is a building containing dwelling units or rooming units, including single-family mobile homes or two-family houses, multiple dwellings, boarding or roominghouses.

“Residential care facility” means a facility that cares for at least five, but not more than 15, functionally disabled persons.

“Retail shop” means uses principally engaged in retail sale or rental of consumer or household goods, including ancillary repair services. These retail uses are characterized by face-to-face transactions conducted by both the buyer and seller on the business premises. Retail businesses that conduct a majority of their sales (over 50 percent) via the Internet or other means of telecommunications are not considered “retail” for the purposes of this section.

“Retirement homes/homes for the aged” includes any home which is maintained for the purpose of providing board and domiciliary care to three or more persons not related by blood or marriage to the operator.

**Section 19.** Section 18.04.200, “T” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 1355 § 1, is hereby amended to read as follows:

**18.04.200 “T”.**

~~“Tower” means any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guy towers, or monopole towers. The term encompasses personal wireless service facilities including radio and television transmission towers, microwave towers, common carrier towers, cellular telephone towers or personal communications services towers, alternative tower structures, and the like.~~

“Tower” shall mean and refer to any structure built for the sole or primary purpose of supporting any antennas and their associated facilities, licensed or authorized by the FCC, including structures that are constructed for wireless communications services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless

services such as microwave backhaul, and the associated site. Examples include, but are not limited to, monopoles, lattice towers and guyed towers.

“Townhouse” or “townhome” means a type of attached dwelling in a row of at least three such units in which each unit has its own front and rear access to the outside, no unit is located over another unit, and each unit is separated from any other unit by one or more vertical common fire-resistant walls.

“Toxic or noxious matter” is any solid, liquid, or gaseous matter or any combination of these containing properties which by their nature tend to impair the health and safety or welfare of individuals or to be destructive of property.

“Tract of land,” see “Lot.”

“Trailer” means a prefabricated living unit of less than 550 square feet in floor area capable of being moved by towing upon the public roads and highways.

“Transmission Equipment” shall mean and refer to equipment that facilitates transmission for any wireless communication service licensed or authorized by the FCC, including, but not limited to, radio transceivers, antennas, coaxial or fiber-optic cable, and regular and backup power supply. The term includes equipment associated with wireless communications services including, but not limited to, private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services such as microwave backhaul.

**Section 20.** Section 18.04.230, “W” of the Bonney Lake Municipal Code and the corresponding portions of Ordinance No. 746 § 19, is hereby amended to read as follows:

**18.04.230 “W”.**

“WCF” means wireless communications facilities.

“Wireless communication facility” is an unstaffed facility for the transmission and reception of low-power radio signals consisting of an equipment shelter or cabinet, a support structure, antennas (e.g., omni-directional, panel/directional or parabolic) and related equipment.

“Wireless communication support structure” is the structure erected to support wireless communication antennas and connecting appurtenances. Support structure types include, but are not limited to, stanchions, monopoles, lattice towers, wood poles or guyed towers.

“Wireless services” are wireless data and telecommunications services, including commercial mobile services, commercial mobile data services, unlicensed wireless services, and common carrier wireless exchange access services, as defined by federal laws and regulations.

“Wireless service facilities” are facilities for the provision of wireless services.

**Section 21.** Section 18.18.020, “Land Use Matrix” of the Bonney Lake Municipal Code and Ordinance No. 1520 § 3 is hereby amended to read as follows:

Zone Use	RC-5	R-1	R-2	R-3	C-1	C-2	E	MC	DC	DM	PF
<b>Residential Uses</b>											
Accessory dwelling unit			P <sup>1</sup>	P <sup>1</sup>							
Adult family home	P	P	P	P	P						
Apartments/condominiums				P		P <sup>2</sup>	P <sup>2</sup>		P <sup>3</sup>	P
