

*Community Development
Committee*

*November 1, 2016
4:00 P.M.*

Council Committees are primarily concerned with legislative/policy matters. They formulate and convey recommendations to the full council for action (BLMC 2.04.090).

Agenda

Location: Justice & Municipal Center; Conference Room 300; 9002 Main Street, Bonney Lake, WA 98391

Committee Liaison: John Vodopich, Public Services Director
Committee Clerk: Debbie McDonald, Administrative Specialist

Call to Order: Councilmember Donn Lewis

Roll Call: Councilmember Donn Lewis, Councilmember Dan Swatman, Council member Jim Rackley

Presentations:

1.

Business/Action Items:

- pg. 2 1. Approve September 20, 2016 Notes
pg. 4 2. AB16-132, D16-132, Mandatory Sewer Connection
pg. 8 3. AB16-134, Resolution 2564, Sewer Main Video Inspection Contract with Bravo Environmental NW, Inc.

Open Committee Discussion:

- pg. 38 1. Water Meter Change outs- John Vodopich

Adjourn:

The meeting was called to order at 4:30 P.M.

Roll Call:

Councilmember Donn Lewis (absent)
Councilmember Dan Swatman
Councilmember James Rackley (absent)
Councilmember Justin Evans
Councilmember Tom Watson

Attendees:

Public Services Director, John Vodopich
City Administrator, Don Morrison
Administrative Specialist, Debbie McDonald

I. Discussion/Presentation:

Public Works Center Site Confirmation – Don Morrison

City Administrator Morrison presented three options and a rough cost breakdown for each site. Will need to decide on a site and if there is enough room for all of Public Works. Might have to consider making it a 2-story building for future City build out.

Councilmember Swatman commented Councilmembers will also need to think about each location and what the project will bring to that area (sewer or a new road) and if a site is not developed what would the City be left with.

City Administrator Morrison will have a detailed cost comparison for each property and bring it back to CDC.

Connection to Sewer at Time of Property Sale – John Vodopich

Public Service Director Vodopich distributed copies of the current code and gave a brief history of the code. It is difficult to administer since we don't always know when home sales happen, he is looking to CDC for recommendations.

The Committee after discussing the issue agree with adding verbiage that states "when a sewer main has been installed on the frontage of the property they would then have to connect upon the sale of the property or the septic tank failing.

Public Service Director Vodopich will revise the code for the next meeting.

II. New Business/Action Items:

Approval of September 6, 2016 CDC Meeting Notes

Meeting Notes were approved as written.

AB16-115 – Motion to Accept as Completed the 2016 Chip Seal Application

Public Services Director Vodopich stated the project has been completed and recommend the Committee accept the project as completed.

The Committee came to a consensus the project has been completed and to release the retainage on the project.

Moved to Consent Agenda

Actions Under Development by Staff:

Ordinance – Residential and Commercial Frontage Maintenance – City and Private Property Owner Responsibilities in the City Right of Way

No update at this time.

Establish City White River Basin Water Rights to be Purchased from Cascade Water Alliance

No update at this time.

Public Works Center project update provided quarterly

Last updated on June 7, 2016, no update at this time.

Councilmember Swatman adjourned the meeting at 5:15 PM.

City of Bonney Lake, Washington
City Council Agenda Bill (AB)

Department/Staff Contact: Public Services / John P. Vodopich, AICP	Meeting/Workshop Date: 1 November 2016	Agenda Bill Number: AB16-132
Agenda Item Type: Ordinance	Ordinance/Resolution Number: TBD	Councilmember Sponsor: Donn Lewis

Agenda Subject: Modification to the requirements for connection to the public sewer system

Full Title/Motion: An Ordinance Of The City Council Of The City Of Bonney Lake, Pierce County, Washington, Amending Chapter 13.12 Of The Bonney Lake Municipal Code And Ordinance No. 1477 Relating To Mandatory Sewer Connections.

Administrative Recommendation: Approve

Background Summary: This Ordinance would modify the requirements for when properties with existing on-site septic systems would be required to connect to the public sewer system by deleting the time of sale connection requirement, clarifying that a gravity sewer must be abutting to the property, and reduce the distance requirement when a septic fails from 250' to 200'.

ORDINANCE NO. D16-132

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF BONNEY LAKE, PIERCE COUNTY, WASHINGTON, AMENDING CHAPTER 13.12 OF THE BONNEY LAKE MUNICIPAL CODE AND ORDINANCE NO. 1477 RELATING TO MANDATORY SEWER CONNECTIONS.

WHEREAS, the City Council wishes to modify the requirements for connecting to the public sewer system; and

NOW THEREFORE, THE CITY COUNCIL OF THE CITY OF BONNEY LAKE, WASHINGTON, DO ORDAIN AS FOLLOWS:

Section 1. BLMC Section 13.12.130 and Ordinance No. 1477 are hereby amended to read as follows:

13.12.130 Sewer connections mandatory.

A. Sewer Connections Mandatory. All new development must connect to the public sewer system unless an exception or special provision in this section has been met.

B. Exception for Single-Family Residential and Duplex. Where a public sanitary sewer is over 250 feet from a lot of record (as measured along centerline of right-of-way or easement from end of sewer main to intersection of right-of-way centerline and extension of the nearest property line), a private wastewater disposal system may be installed in conjunction with the construction of an individual single-family home or duplex if the Tacoma-Pierce County health department has issued a permit for the private wastewater disposal system.

C. Limits on Use of Private Wastewater Disposal Systems. Where a private wastewater disposal system predates the enactment of this section or has been permitted pursuant to subsection B of this section, the private wastewater disposal system may be used so long as it is functioning properly; provided, that:

1. When a gravity public sewer main has been installed in any street, alley, or right-of-way abutting ~~within 250 feet of~~ the property line, the property must connect to the public sewer at the time of ~~sale or~~ substantial improvement as defined in BLMC 16.20.030; and
2. When a public sewer main has been installed within ~~250~~ 200 feet of the property line, the property must connect to the public sewer if the private wastewater disposal system fails or requires replacement;
3. If a property is not connected to the public sewer at the time a connection is required under this section, the city shall levy penalties in an amount equivalent to

such charges that would be levied if said property were connected, pursuant to RCW 35.67.190.

D. Special Conditions for Eastown Zoning District. Properties within the Eastown zoning district may continue to use existing private wastewater disposal systems for existing or changed uses and may install new private wastewater disposal systems in conjunction with changes of use or new construction. The Tacoma-Pierce County health department must issue a permit for all private wastewater disposal systems. Applicants for development approvals or permits, including but not limited to site plan approvals, building permits, tenant improvements, and certificates of occupancy, shall, at the time of permitting, execute an agreement with the city containing the following provisions:

1. A covenant, which shall run with the land and bind future owners of the property, to connect to public sewer service within one year of when sewer service becomes available. For purposes of this section, sewer service is available when an active public sewer main reaches the property line or is within 250 feet of the property line;
2. An agreement that system development charges and related charges, latecomer fees, and monthly sewer fees shall be due at the time public sewer service becomes available, and that unpaid charges will become a lien on the property;
3. An agreement to install public sewer infrastructure required by then current Bonney Lake Municipal Code, including dry lines located in a public sewer easement, at the time of temporary septic system construction;
4. An agreement that if future construction increases the sewer capacity required by the property, additional system development charges shall be paid;
5. A requirement to decommission the private wastewater disposal system at the time of sewer connection.

E. Financial Hardship for Residential Customers. When connection to the sewer system for an existing residence becomes mandatory ~~and the home is not being sold contemporaneously with the mandatory sewer application,~~ a homeowner may apply to the city to pay the sewer SDC on an installment payment plan. The application shall state that paying the SDC poses a financial hardship. The city may permit the applicant to pay the charge in monthly or annual installments (not both) for a period of not more than 10 years. A reasonable interest rate, as determined by the city's chief financial officer, will be charged on the balance owing to the city. The entire remaining balance of the connection charge plus interest shall be due and payable at the time of sale of the home. Any past-due installments and any remaining balance that are not paid at the sale of the home will become a lien on the property.

Section 2. The city clerk shall sign and file with the adopting ordinance a copy of the statutes and regulations referenced herein and shall also file and maintain the city clerk's office one copy of each of the adopted laws in the form in which they were adopted for use and examination by the public.

Section 3. This Ordinance shall take effect and be in force thirty (30) days from and after its passage, approval and publication, as required by law.

PASSED by the City Council and approved by the Mayor this ____ day of _____, 2016.

Neil Johnson, Jr., Mayor

Exhibit A

City of Bonney Lake
Small Public Works Project
Prevailing Wages Are Required To Be Paid

Invitation to Quote
Date: September 21, 2016

The City of Bonney Lake is accepting quotes for a Small Public Works Project. As a contractor on our Small Works Roster, you are invited to submit a quote on this project.

Project Title: Sewer Main Video Inspection

Scope of Work: Video inspect approximately 8,130 LF of sewer main. The following are key points of this scope of work:

Schedule A (From SR 410 SS MH STA 18+54 6' RT to Pig Launch Vault STA 75+15)

- Video Inspect 100 LF of 24" SS DI
- Video Inspect 1130 LF of 18" SS FM HDPE

Schedule B (From Pig Launch Vault STA 75+15 to 16" SS FM CONN. STA 6+16)

- Video Inspect 6900 LF of 18" SS FM HDPE

Schedule A & B

- Provide the City with detailed DVD video disk records of lines inspected.
- Notify the City of any defects to the pipes.
- Notify the City of any unusual circumstances, problems, or changes in conditions.
- Any additional work found during the course of inspection may be addressed under separate contract.
- Pipe inspection shall be performed during lift station shut down (1 hour maximum shutdown with a 20 min start-up between shutdowns).
- Lift station shutdown will be performed by the City of Bonney Lake.
- Provide any cost associated with standby time.
- The contractor will provide all temporary traffic control.
- The contractor is responsible for confined space entry/safety.

- Provide the City with a schedule of work.
- Setup on SR 410 shall be on the west side adjacent to STA 17+59.

Schedule C (From SR 410 SS MH STA 18+54 6' RT to Pig Launch Vault STA 75+15)

- Vactor Clean 100 LF of 24" SS DI
- Vactor Clean 1130 LF of 18" SS FM HDPE

Schedule D (From Pig Launch Vault STA 75+15 to 16" SS FM CONN. STA 6+16)

- Vactor Clean 6900 LF of 18" SS FM HDPE

Schedule C & D

- Vactor clean includes removal and disposal of debris found in the sewer conveyance system.
- Provide sewer bypass with minimum 2,000 GPM capacity.
- Provide any cost associated with standby time.
- The contractor will provide all temporary traffic control.
- The contractor is responsible for confined space entry/safety.
- Provide the City with a schedule of work.
- Setup on SR 410 shall be on the west side adjacent to STA 17+59.

Quote Submittal Deadline: 3:00 pm Monday, October 17, 2016

If you have any questions please contact Andrew Fonda at (253) 447-3270.

A plan set of designated sewer mains to be inspected is attached.

PROFESSIONAL SERVICES AGREEMENT

THIS PROFESSIONAL SERVICES AGREEMENT (“Agreement”) is made and entered into this 8th day of November, 2016, by and between the City of Bonney Lake (“City”) and Bravo Environmental NW, Inc. (“Consultant”).

The parties hereby agree as follows:

- 1. Scope of Work.** The Consultant shall perform all work and provide all materials described in the Scope of Work set out in Exhibit A attached hereto and incorporated herein by this reference. Such work shall be performed using facilities, equipment and staff provided by Consultant, and shall be performed in accordance with all applicable federal, state and local laws, ordinances and regulations. The Consultant shall exercise reasonable care and judgment in the performance of work pursuant to this Agreement. The Consultant shall make minor changes, amendments or revisions in the detail of the work as may be required by the City, such work not to constitute Extra Work under this Agreement.
- 2. Ownership of Work Product.** Documents, presentations and any other work product produced by the Consultant in performance of work under this Agreement shall be tendered to the City upon completion of the work, and all such product shall become and remain the property of the City and may be used by the City without restriction; *provided*, that any such use by the City not directly related to the particular purposes for which the work product was produced shall be without any liability whatsoever to the Consultant.
- 3. Payment.** The Consultant shall be paid by the City for completed work and services rendered under this Agreement pursuant to the rates and charges set out in Exhibit B, attached hereto and incorporated herein by this reference. Such payment shall be full compensation for work performed or services rendered and for all labor, materials, supplies, equipment, and incidentals necessary to complete the work. All billings for compensation for work performed under this Agreement shall list actual time and dates during which the work was performed and the compensation shall be figured using the rates set out in Exhibit B; *provided*, that payment for work within the Scope of Work (Exhibit A) shall not exceed the fee/hour estimate set out in Exhibit B without written amendment to this Agreement, agreed to and signed by both parties.

Acceptance of final payment by the Consultant shall constitute a release of all claims, related to payment under this Agreement, which the Consultant may have against the City unless such claims are specifically reserved in writing and transmitted to the City by the Consultant prior to acceptance of final payment. Final payment shall not, however, be a bar to any claims that the City may have against the Consultant or to any remedies the City may pursue with respect to such claims.

The Consultant and its sub consultants shall keep available for inspection, by the City, for a period of three years after final payment, the cost records and accounts pertaining to this Agreement and all items related to, or bearing upon, such records. If any litigation, claim or audit is started before the expiration of the three-year retention period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved. The three-year retention period shall commence when the Consultant receives final payment.

4. **Changes in Work.** The Consultant shall make all revisions and changes in the work completed under this Agreement as are necessary to correct errors, when required to do so by the City, without additional compensation.

5. **Extra Work.** The City may desire to have the Consultant perform work or render services in addition to or other than work provided for by the expressed intent of the Scope of Work. Such work will be considered Extra Work and will be specified in a written supplement which will set forth the nature and scope thereof. Work under a supplement shall not proceed until authorized in writing by the City. Any dispute as to whether work is Extra Work or work already covered by this Agreement shall be resolved before the work is undertaken. Performance of the work by the Consultant prior to resolution of any such dispute shall waive any claim by the Consultant for compensation as Extra Work.

6. **Employment.** Any and all employees of Consultant, while engaged in the performance of any work or services required by the Consultant under this Agreement, shall be considered employees of the Consultant only and not of the City, and any and all claims that may or might arise under the Workman's Compensation Act on behalf of said employees, while so engaged; any and all taxes arising out of Consultant's or Consultant's employees' work under this Agreement; and any and all claims made by a third party as a consequence of any acts, errors, or omissions on the part of the Consultant's employees, while so engaged, shall be the sole obligation and responsibility of the Consultant, except as provided in Section 12 of this agreement. The Consultant's relation to the City shall at all times be as an independent contractor.

7. **Nondiscrimination and Legal Compliance.** Consultant agrees not to discriminate against any client, employee or applicant for employment or for services because of race, creed, color, national origin, marital status, gender, age or handicap except for a bona fide occupational qualification with regard to, but not limited to, the following: employment upgrading; demotion or transfer; recruitment or any recruitment advertising; layoff or termination; rates of pay or other forms of compensation; selection for training; and rendition of services. The consultant represents and warrants that it is in compliance with and agrees that it will remain in compliance with the provisions of the Immigration Reform and Control Act of 1986, including but not limited to the provisions of the Act prohibiting the hiring and continued employment of unauthorized aliens and requiring verification and record keeping with respect to the status of each of its employees' eligibility for employment. The consultant shall include a provision substantially the same as this

section in any and all contracts with sub consultants performing work required of the contractor under this contract. The consultant agrees to indemnify and hold the City harmless from any and all liability, including liability for interest and penalties, the City may incur as a result of the consultant failing to comply with any provisions of the Immigration Reform and Control Act of 1986. Consultant understands and agrees that if it violates this section, this Agreement may be terminated by the City, and that Consultant shall be barred from performing any services for the City in the future unless and until a showing is made satisfactory to the City that discriminatory practices have terminated and that recurrence of such action is unlikely.

8. **Term.** This Agreement shall become effective upon the day of its execution by both parties, and shall terminate upon completion of the work and delivery of all materials described in Exhibit A.

9. **Termination by City.** The City may terminate this Agreement at any time upon not less than ten (10) days written notice to Consultant, subject to the City's obligation to pay Consultant in accordance with subsections A and B below.

A. In the event this Agreement is terminated by the City other than for fault on the part of the Consultant, a final payment shall be made to the Consultant for actual cost of work complete at the time of termination of the Agreement. In addition, the Consultant shall be paid on the same basis as above for any authorized Extra Work completed. No payment shall be made for any work completed after ten (10) days following receipt by the Consultant of the termination notice. If the accumulated payment(s) made to the Consultant prior to the termination notice exceeds the total amount that would be due as set forth in this subsection, then no final payment shall be due and the Consultant shall immediately reimburse the City for any excess paid.

B. In the event the services of the Consultant are terminated by the City for fault on the part of the Consultant, subsection A of this section shall not apply. In such event the amount to be paid shall be determined by the City with consideration given to the actual costs incurred by the Consultant in performing the work to the date of termination, the amount of work originally required which was satisfactorily completed to date of termination, whether that work is in a form or of a type which is usable by the City at the time of termination, the cost to the City of employing another person or firm to complete the work required and the time which may be required to do so, and other factors which affect the value to the City of the work performed at the time of termination. Under no circumstances shall payment made under this subsection exceed the amount which would have been made if subsection A of this section applied.

C. In the event this Agreement is terminated prior to completion of the work, the original copies of all work products prepared by the Consultant prior to termination shall become the property of the City for its use without restriction; *provided*, that any such use by the

City not directly related to the particular purposes for which the work product was produced shall be without any liability whatsoever to the Consultant.

10. **Termination by Consultant.** Consultant may terminate this Agreement only in response to material breach of this Agreement by the City, or upon completion of the work set out in the Scope of Work and any Extra Work agreed upon by the parties.

11. **Applicable Law; Venue.** The law of the State of Washington shall apply in interpreting this Agreement. Venue for any lawsuit arising out of this Agreement shall be in the Superior Court of the State of Washington, in and for Pierce County.

12. **Indemnification / Hold Harmless**

Consultant shall defend, indemnify and hold the City, its officers, officials, employees and volunteers harmless from any and all claims, injuries, damages, losses or suits including attorney fees arising out of or resulting from the negligent acts, errors or omissions of the Consultant in performance of this Agreement, except for injuries and damages caused by the sole negligence of the City. In the event of liability for damages arising out of bodily injury to persons or damages to property caused by or resulting from the concurrent negligence of the Consultant and the City, its officers, officials, employees, and volunteers, the Consultant's liability, including the duty and cost to defend, hereunder shall be only to the extent of the Consultant's negligence. It is further specifically and expressly understood that the indemnification provided herein constitutes the Consultant's waiver of immunity under Industrial Insurance, Title 51 RCW, solely for the purposes of this indemnification. This waiver has been mutually negotiated by the parties. The provisions of this section shall survive the expiration or termination of this Agreement.

Insurance

The Consultant shall procure and maintain for the duration of the Agreement, insurance against claims for injuries to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

A. Minimum Scope of Insurance

Consultant shall obtain insurance of the types described below:

1. Automobile Liability insurance covering all owned non-owned, hired and leased vehicles. Coverage shall be written on Insurance Services Office (ISO) form CA 00 01 or a substitute form providing equivalent liability coverage. If necessary, the policy shall be endorsed to provide contractual liability coverage.

2. Commercial General Liability insurance shall be written on ISO occurrence form CG 00 01 and shall cover liability arising from premises, operations, independent contractors and personal injury and advertising injury. The City shall be named as an insured under the Consultant's Commercial General Liability insurance policy with respect to the work performed for the City.

3. Workers' Compensation coverage as required by the Industrial Insurance laws of the State of Washington.

4. Professional Liability insurance appropriate to the Consultant's profession.

B. Minimum Amounts of Insurance

Consultant shall maintain the following insurance limits:

1. Automobile Liability insurance with a minimum combined single limit for bodily injury and property damage of \$1,000,000 per accident.

2. Commercial General Liability insurance shall be written with limits no less than \$1,000,000 each occurrence, \$2,000,000 general aggregate.

3. Professional Liability insurance shall be written with limits no less than \$1,000,000 per claim and \$1,000,000 policy aggregate limit.

C. Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions for Automobile Liability, Professional Liability and Commercial General Liability insurance:

1. The Consultant's insurance coverage shall be primary insurance as respect the City. Any insurance, self-insurance, or insurance pool coverage maintained by the City shall be excess of the Consultant's insurance and shall not contribute with it.

2. The Consultant's insurance shall be endorsed to state that coverage shall not be cancelled by either party, except after thirty (30) days prior written notice by certified mail, return receipt requested, has been given to the City.

D. Acceptability of Insurers

Insurance is to be placed with insurers with a current A.M. Best rating of not less than A:VII.

E. Verification of Coverage

Consultant shall furnish the City with original certificates and a copy of the amendatory endorsements, including but not necessarily limited to the additional insured endorsement, evidencing the insurance requirements of the Consultant before commencement of the work.

13. Prevailing Wage

Consultant shall pay all laborers, workers, or mechanics performing work under this Agreement prevailing wages as required by Ch. 39.12 RCW, and shall satisfy all other requirements of that chapter, including without limitation requiring that all subcontractors performing work related to the project comply with the requirements of that chapter. The hourly minimum rate of wage which may be paid to laborers, workers, or mechanics for work related to the Project is shown on Exhibit C, attached hereto and incorporated herein by this reference. Prior to the CITY making any payment to Consultant under this Agreement, Consultant and each subcontractor shall submit to the CITY a Statement of Intent to Pay Prevailing Wages approved by the industrial statistician of the Washington State Department of Labor and Industries and complying with the requirements of RCW 39.12.040. Prior to release of the sums retained pursuant to section 17 of this Agreement ["Retainage"], Consultant and each subcontractor shall submit to the City an Affidavit of Wages Paid approved by the industrial statistician of the Washington State Department of Labor and Industries and complying with the requirements of RCW 39.12.040.

14. Subletting or Assigning. The Consultant shall not sublet or assign any of the work covered by this Agreement without the express written consent of the City.

15. Entire Agreement. This Agreement represents the entire Agreement between the parties. No change, termination or attempted waiver of any of the provisions of the Agreement shall be binding on any party unless executed in writing by authorized representatives of each party. The agreement shall not be modified, supplemented or otherwise affected by the course of dealing between the parties.

16. Waiver. Failure by any party to this Agreement to enforce any provision of this Agreement or to declare a breach shall not constitute a waiver thereof, nor shall it impair any party's right to demand strict performance of that or any other provision of this Agreement any time thereafter.

17. Severability. If any provision of this Agreement or its application is held invalid, the remainder of the Agreement or the application of the remainder of the Agreement shall not be affected.

18. **Execution and Acceptance.** This Agreement may be executed in several counterparts, each of which shall be deemed to be an original having identical legal effect. The Consultant hereby ratifies and adopts all statements, representations, warranties, covenants, and agreements contained in the supporting materials submitted by the Consultant, and does hereby accept the Agreement and agrees to all of the terms and conditions thereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first above written.

Subject: RE: CDC Water Meters

Ryan and John,

The current number of meters changed out are as follows:

2012-2013 All commercial accounts	300 meters
2014 3 County routes	1,255 meters
2015 1 County route	820 meters
2016 1 County route completed, 1 County route scheduled for this year	1,481 meters

Currently we have changed 878 in 2016, with the other 603 being prepped now for change outs starting after this read cycle. This will bring our total up to 3,856 change outs since we began, and 8 complete routes completed.

In 2017/2018 our plan was to change out the remaining 3 routes in Lakeland Hills. This would make all County meters radio reads. This is a total of approximately 2,395 meters. However, with the loss of funding, this may take 3 years due to estimated cost of the meters and registers of \$470,000 +/-.

Initially the plan was for full change out in 10 years. If we ignore the first 2 years of Commercial change outs due to learning curves, staffing, and cost of larger meters, we are on target with 10 years of residential change outs. The remaining routes beginning in 2019 would be City accounts totaling approximately 7,000 meters. If we were to continue with a 5 year plan to get these changed out, we would need to plan on 1,400 meters/year at an estimated cost of \$300,000 +/- per year. We currently pay \$212/meter (including register) and \$180/ register only. Currently we only change out full meters if they are not Neptune (we started installing Neptune meters around 2011). If they are Neptune meters, we only change the registers since the meter bodies are still viable.

If the program is fully funded, we are able to meet our goals by having seasonal staff prepare the meter boxes for the change outs, and working with our Meter Readers during the change outs. If the funding levels decrease, the timeframe for completion will slip accordingly.

Thanks!

Dave
